

WEATHER FORECAST

For 24 hours ending 5 p.m., Wednesday:
Victoria and vicinity—Fresh to high south
and west winds, generally fair and mild,
with showers.

VOL 70 NO. 117

LIBERAL VICTORY IN QUEBEC MEANS PEOPLE DESIRE STEADY DEVELOPMENT, SAYS PREMIER

Policy of Initiative and Progress Vindicated by Sweep
in Provincial General Election, Declares Taschereau;
Government Party in New Legislative Assembly
Will Number Seventy-four Against Ten Conserva-
tives; Polling in One Constituency Deferred

Quebec, May 17.—"May 16, 1927, marks one of the greatest Liberal victories in the province of Quebec," said Hon. L. A. Taschereau, premier, in a statement he gave to the Canadian Press today on the result of the Provincial general election yesterday, in which the Government Party was returned to power with seventy-two Liberal members, supported by two Independent Liberals, in a Legislative Assembly of eighty-five.

"In the face of such a testimony of confidence we have cause to be proud, to rejoice and to entertain feelings of the liveliest satisfaction," said the Premier. "This result constitutes, in effect, a striking approbation of the policy we have pursued since the last popular appeal, a policy of progress, of initiative, of a policy of progress."

"This attitude of the electorate, moreover, carries with it a lofty political lesson. The Conservative Party is certainly stronger than the vote would indicate; but the people, who understand their responsibilities, have had enough of personalities, of defamations, and of little incidents which do not assist in the development of a country. That is why many Conservatives rallied to us."

PERIOD OF PROGRESS
"Let us forget the bitterness and the asperity of the struggle. Our province is only at the dawn of the marvelous progress that is reserved to us. Let us work together to ensure its realization. Our Federal friends, Ministers and members, lent us their collaboration with an expedition and generosity for which I thank them most heartily. The solidarity that exists between the Liberals at Ottawa and those at Quebec could not have been better demonstrated."

DIVISION OF SEATS
Of the eighty-five seats that constitute the Legislative Assembly the Liberal Party yesterday captured seventy-two outright, and has a claim on two more, the candidates in St. Maurice and Charlevoix-Saguenay being elected as Independent Liberals. The Conservatives, who had eighteen members in the last House, saw this number reduced to ten. Of these, five are from the Island of Montreal, including William Tremblay, who presented himself as a Labor man, but was put up as a Conservative convention.

The election still remains to be concluded on page 2.

**NEW GERMAN ACT
DARS EX-KAISER**
Reichstag Passes Bill Extending Statute For Defence of Republic

Berlin, May 17.—The Max Government bill providing for a two-year extension of the federal statute for the defence of the republic, which will expire in July, was passed through the Reichstag quickly to-day by a vote of 331 to 1.

By this measure the return to Germany of former Kaiser Wilhelm can effectively be barred until the new penal code, which it is expected will make his return permanently impossible, can be completed and adopted. Passage of the bill by the necessary 263 majority was made possible only by the Nationalists, who hitherto had been bitterly opposed to the "Anti-Kaiser" clause, but supported the bill rather than risk bringing on a government crisis.

**U.S. Army Airman
Lost Life in Crash**

Middletown, Pa., May 17.—Major Harold Geiger was killed to-day when his aeroplane was wrecked and burned as he was taking off here for a return trip to the Aberdeen proving grounds of the United States army air service.

**NEW AGREEMENT ON
BORDER RULES SOON**
Coolidge Expects Satisfactory Working Arrangement With Canada

Washington, May 17.—President Coolidge has been informed a satisfactory arrangement probably will be worked out with Canada in regard to the recently announced immigration regulations, involving restricted entry of persons from that country into the United States.

U.S. SPOKESMAN IN NICARAGUA

HENRY L. STIMSON
sent to Nicaragua by President Coolidge, has induced the leader of the Liberal faction to agree to lay down their arms. It is hoped this will give the republic internal peace. Civil war has been going on for months.

SEATTLE TO GREET SIR ESME HOWARD

British Ambassador Will Cross to Victoria Saturday For Canadian Club Dinner

Sir Esme William Howard, ambassador extraordinary and minister plenipotentiary of Great Britain to the United States, will arrive in Victoria Saturday morning. Lady Isabella Howard will accompany him.

Sir Esme will be the guest of the Canadian Club at a dinner Saturday evening at the Empress Hotel.

He and Lady Howard have been in California and on their way up the coast. They are in Portland to-day and will arrive in Seattle at 6 o'clock Thursday morning. At 7 o'clock Thursday evening, Sir Esme and Lady Howard will be the guests at a formal banquet in the Spanish ballroom of the Olympic Hotel.

On their arrival at the King Street station, Seattle, Sir Esme and Lady Howard will be met by Bernard Pelly, consul of Great Britain; J. T. Harde-man, chairman of the foreign trade committee of the Seattle Chamber of Commerce; M. Williams, A. P. Brown, George C. Boswell and Guy Dowdell, representing Sons of St. George. The visitors will be escorted to the Olympic Hotel, where there will be a luncheon comprising an officer, four privates and a color sergeant.

APPEAL IN ALBERTA CASE IS DISCUSSED

Natural Resources Question May be Taken to Privy Council in London

Ottawa, May 17.—The matter is under consideration, declared Hon. Lucien Cannon, Solicitor-General, to-day, in referring to a report that the Federal Government would appeal the recent decision of the Supreme Court of Canada in the Alberta reference case. "The Government," Mr. Cannon added, "will facilitate any appeal to the Privy Council in London Alberta may make."

The judgment of the Supreme Court of Canada was to the effect that Section 17 of the Alberta Act of 1905 was ultra vires of the Parliament of Canada and followed a reference to the court by the Government on the question of the validity of the section. The question arose out of negotiations for transfer of the natural resources of the province from Federal to provincial control.

ROADS ARE PUT IN FINE SHAPE

Spring Programme Shows Results on Island; Methods Here Copied on Mainland

Malahat in Better Condition Than Ever; Plan Fraser Valley Improvements

Work now under way in every district of the Province will give the traveling public this year the best roads ever available in British Columbia. Officials of the Public Works Department who have just returned here after inspecting road work proceeding in many districts report rapid progress on projects which will be of great benefit to motorists.

Vancouver Island roads are benefiting particularly from the programme now proceeding. The Malahat Highway, which was treated with bituminous material recently, is in better condition to-day than ever before. Methods of surfacing evolved on the Malahat have proved an outstanding success and are being widely copied. The black top of the highway has been made so smooth in the last few weeks that it is difficult to detect the difference between cement paving from the city as far as Colwood and the oil surface further on.

Meanwhile widening of the Highway at many points is proceeding. Holes are being drilled into the rocky cliffs above the road at dangerous curves in preparation for blasting work to be carried on later. When this is complete many of the present curves will be possible in future for cars to turn around there without difficulty.

METHODS COPIED
The success of surfacing on the Island Highway and on other Island roads has resulted in the decision of municipalities in the Fraser Valley to adopt similar methods. At a conference between Hon. E. D. Barrow, member of the Legislature for Chilliwack, officials of the Public Works Department, and representatives of Fraser Valley districts in Chilliwack yesterday.

Tax Rate Set in Prince Rupert For 1927 Fifty Mills

Prince Rupert, B.C., May 17.—The Prince Rupert city tax rate for 1927 is fifty mills. The Canadian National Railway tax question has created a problem. The company has offered to meet the city's proffered \$66,000 annual tax provided it includes continued exemption on the drydock, as well as \$6,000 annually due as debenture charges against that plant. The city council, however, declined the proposal of the company, and in view of this the city feels obliged to withdraw further action against Mr. Justice Gregory's recent decision in order to be legally able to levy a tax rate of fifty mills.

NIAGARA SMUGGLER DESCRIBES HIS WORK

Man Says He Crossed River Twenty-six Times Without Trouble

Niagara Falls, Ont., May 17.—A man who made twenty-six trips across the border at Port Erie and Niagara Falls with smuggled goods in his car, without detection, gave evidence before the Customs Commission here this morning. Not only was he able to bring his goods across but, according to his evidence, the war was not searched once in the twenty-six trips. The customs officers would look in and ask if he had anything to declare and on receiving a negative response would let him pass, he said.

"It looked pretty easy to me," said this man, John Ritchie, of Crystal Beach, on the Canadian shore opposite Buffalo.

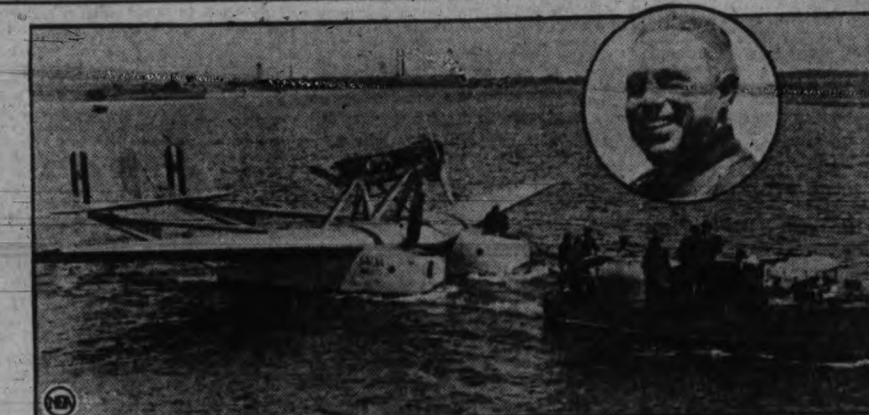

WANTED PRIZES
It developed that Ritchie runs some "games of skill and chance" at Crystal Beach and presents prizes of cheap jewelry, clocks, watches and perfume to the lucky winners. He admitted he had brought these prizes, to the value of several hundred dollars, into Canada without declaring the goods. He stated, however, that he could not purchase the articles he smuggles in Canada. He found that after he had crossed a number of times without any suspicion, goods and found the case was not searched, "it looked easy to him," so he began bringing in the goods.

L. A. Seers Died In City of Montreal

Montreal, May 17.—Louis A. Seers, ninety-three-year-old dean of the Quebec bar, died here yesterday.

Admitted to the bar in 1892, he first practiced in Montreal. Mr. Seers was a friend of Cheplau, Davis, Charnier, Scott and many others well known many years ago.

PINEDO PREPARES FOR TRANSATLANTIC FLIGHT ATTEMPT

While three crews at New York are tuning up their monoplane for non-stop flights to Paris, Commander Francesco de Pinedo, Italian aviator, and his assistants are preparing for a flight from Newfoundland across the Atlantic. The Pinedo crew was to have flown to Montreal yesterday, but motor trouble delayed the departure from Chicago. The aviators will fly to Montreal as soon as possible and a day or so after their arrival there hope to take off for Trepansey, Newfoundland, from where the start for the transatlantic flight is to be made. Pinedo's monoplane, shown above, is a new one he had sent out from Italy to replace the one burned recently at Lake Roosevelt, Arizona, in which he and his companions had flown from Sardinia to Africa and across the South Atlantic to Brazil, afterwards visiting Argentina and flying north to the United States. Pinedo hopes to end his flight in Italy. Inset in the cut above is a picture of Commander de Pinedo.

FRASER RIVER RISES AS RAIN CONTINUES

Vancouver District Last Night Had Half-inch of Rain in One Hour

Level of River at New Westminster Comes up Two Feet in Week

Vancouver, May 17.—A new record for intensity of precipitation was set in Vancouver last night when one-half inch of rain fell in one hour. E. B. Shearman of the Federal Meteorological Service reports that between 10 and 11 p.m. his gauge registered 3.5 of an inch. Rain started at 2 p.m. yesterday, increased in intensity until 11 p.m. and continued all night in a steady down-pour. In the twelve hours between 2 p.m. and 5 a.m. the total precipitation was 1.27 inches. A gradual rise of two feet in seven days has been recorded in the Fraser River at New Westminster.

OCEAN RACE MAY BE TWO-PLANE AFFAIR

Dissension Threatens to Remove Bellanca Machine From Atlantic Contest

New York, May 17.—An open break between Lloyd Berland, navigator of the Bellanca monoplane, "Columbia," and Charles A. Levine, chief backer of its Transatlantic flight project, threatened to-day to eliminate the plane from the triple dash to Paris. Berland's lawyer, Clarence W. Nutt, issued a statement charging Levine with deliberately delaying the taking of the "Columbia" in order to allow Commander Richard E. Byrd's Kokomo monoplane, "America," and Captain Charles Lindbergh's Ryan monoplane, "Spirit of St. Louis," to get away first. This he asserted, would provide an excuse for cancellation of the Bellanca's flight.

WEATHER UNFAVORABLE

Meanwhile, continued unfavorable weather caused further postponements of the contemplated flight. Indications were that none of the contenders would attempt a hopoff before Thursday, and by that time it was thought Byrd would have completed his last tests and be ready for the Paris jump.

Dissension among the ranks of the Bellanca entry has been brewing for several days.

FREE MONEY
As a result of a conference Saturday, an oral agreement was reached under which the fliers were to receive the full prize money, their wives were to be given financial protection and the one-year contract was to be waived.

This agreement was placed in writing, but Nutt charged a paragraph had been inserted reserving to Levine the right to withdraw from the flight or to remove one or both of the fliers with compensation of four weeks' expenses.

As a result of this clause, the contract was not signed. Nutt announced he was prepared to start suit to compel carrying out of the terms of the alleged oral agreement.

DEBENTURE INTEREST RATE TO BE CUT

Vancouver, May 17.—Interest rate on City of Vancouver debentures will be decreased from 5 to 4½ per cent, effective on the next issue, it is announced by City Controller A. J. Pilkington.

The last issue of city debentures was sold April 21 at \$101.80. The issued amount was \$2,025,000 and the city realized a premium of \$36,480.

"In view of the present price of money, there is no doubt the city council will decide to reduce the interest rate," remarked Mr. Pilkington. City of Toronto 4½ per cent serial bonds sold at \$98.35 recently.

RUM RUNNERS SAW A LARGE AEROPLANE NEAR CAPE SABLE

Lynn, Mass., May 17.—The Lynn Item prints to-day a story of a large aeroplane having been seen off Cape Sable, N.S., early on the morning of Monday, May 9, by men on a run-running schooner who landed here last night. Neither the names of the men nor the schooner are used, in conformance with the request of the source, but the story said the men were positive in their statements.

WEATHER HAMPERS NUNGESSER SEARCH

Steamers Between Nova Scotia and Newfoundland Report no Success

Ottawa, May 17.—Unfavorable weather conditions in Cabot Strait, lying between Nova Scotia and Newfoundland, continues to impede the Government steamers searching for information regarding Captain Nungesser and his missing French transatlantic aviator.

The steamers Mikula and Montcalm reported to the Department of Marine and Fisheries to-day that no trace of the aviator had been found by them in their patrol of the waters bordering the Nova Scotia shore and Newfoundland. A similar report was received to-day from Government radio stations along the Atlantic seaboard.

WEEK OF SEARCHING

New York, May 17.—After a week of searching, hope and rumors, the world to-day knows as little of the fate of the ill-fated Captain Charles Nungesser and Francis Coli as it did on Monday of last week, when the intrepid French aviators failed to reach New York on a flight from Paris.

The principal remaining hope was that the aeroplane, named the White Bird, was forced to descend off Grand Banks and the Nungesser and Coli were picked up by a fishing vessel. In such an event, it would be a matter of days before any word could be received. Any vessel that may have rescued the fliers, it is believed, would not return to port until its fishing work had been completed.

Ship Crew Saw Wreckage East of Boston Region

Boston, May 17.—A report of peculiar bit of wreckage, sighted about 100 miles east of Boston was brought to the authorities here to-day by Captain E. F. Ing of the United States Shipping Board steamship Belle Plaine, which docked to-day from Rotterdam. It was just dusk last evening when the wreckage was sighted and although several attempts were made to take it on board, it fell before it was secured. Captain Ing described it as a natural colored wood, twenty feet long and five wide, having ribs of three-inch wood on one side with a lengthwise traverse of the same strength and being of wood about three inches thick on the outside. Witnesses said it resembled an aeroplane wing and it might have come from the missing White Bird of Captain Nungesser and Coli.

SEARCH FOR BODY IN SOMASS RIVER FAILS

Vancouver, May 17.—Alexander Marshall returned here from Port Alberni to-day reporting a futile search for the body of his son, Harry A. Marshall, who was drowned in the Somass River on Sunday.

A. NICHOLSON TRIAL STARTS IN VANCOUVER

Man Defends Himself Against Charge of Murdering M. Douglas

Robert Moore to be Put on Trial Later on the Same Charge

Vancouver, May 17.—Refused an adjournment by Mr. Justice D. A. McDonald and granted a severance from the case of Robert Moore, conditional on his trial proceeding immediately, Angus Nicholson was arraigned in the Assize Court here to-day on a charge of having murdered Marshall Douglas, an advertising man, in the Canada Hotel here April 5 last.

The accused, who is defended by Gordon S. Wisner and J. D. McPhee, pleaded not guilty.

A. M. Johnson, K.C., is prosecuting. Prominent in a large gallery of interested spectators was Mrs. Douglas, the widow.

The complete jury panel of forty-five was exhausted before a jury of eleven men and one woman was selected. The defence exercised its rights to twenty challenges, and fifteen jurors who had been stood aside by Mr. Johnson was later called forward by a jury was empaneled.

PASSENGER REFUSED ENTRY TO BRITAIN

Woman Claiming to be Russian Ex-Princess to Return to United States

Liverpool, May 17.—The Home Office has ordered that a passenger describing herself as "Princess Nadine de Charrow," who arrived here on the steamship Cedric to-day, shall be returned to the United States Saturday.

Princess de Charrow sailed from New York on the Cedric May 8. The princess said she was a daughter of the Grand Duchess Uroslava of Russia and was related to the Prince of Wales. When she departed from New York she is reported to have said she was going to visit the King.

CANNERY DECISION IS TO BE APPEALED

Vancouver Magistrate Decided Against Ottawa on Question of Control

Vancouver, May 17.—Appeal against the finding of Magistrate H. C. Alexander, in which he ruled against the Department of Fisheries in its action against the Somerville Cannery Company, is to come up for argument by way of stated case Thursday morning in Supreme Court Chambers here.

Action was brought against the company by the department, which charged it with operating a cannery without a license, resulting from dispute between the cannery and the department, in which the company challenged the right of the department to levy a license.

In deciding in favor of the cannery company, Magistrate Alexander ruled that while the department possessed the right to exercise control over fishing operations, once the fish was caught, its jurisdiction in that regard ceased.

The decision is of far-reaching importance, since it affects the entire salmon cannery industry of the British Columbia coast.

RESIDENTS FLEE AS RIVER FLOOD RUNS OVER TOWN

People of Town of Melville, Louisiana, Rush From Homes When Guards Fire Shots, Warning Them Levee Giving Way and Atchafalaya River Waters Pouring Into Town; Unable to Save Any of Possessions; Rescued by Boats

Baton Rouge, La., May 17.—A report that the main levee at Melville, La., on the west bank of the Atchafalaya River, had broken to-day and that the residents had been forced to flee, was received here. The information came from a telephone operator at Melville, who stated that virtually everything in the town had been destroyed.

Melville is 130 miles northwest of New Orleans and is on the opposite side of the river from Crescent City, and forty-five miles northwest of Baton Rouge. The levee was from fifteen to eighteen feet high and John Parker, state flood director, was advised that two hours after the break, which came about 6 a.m., the crevasse had widened to 800 feet. Confidence was expressed here no lives had been lost, as most of the 1,028 inhabitants of Melville had sought refuge on the levee.

Two relief trains were reported to be standing by to remove the flood victims. SCENES DESCRIBED

The scene that followed the break was described to the Associated Press to-day by Mrs. Julia MacNeill of Melville. She was the first to escape from the town. All were aroused by shots fired by the levee guards and rushed from their homes in their night clothes, she said.

"They immediately scrambled on the levees, where they waited for the rescue boats. They have absolutely nothing, most of them not having had time to get any clothes," she continued.

"The waters rushed through the break with a roar and swept away nearby houses from their foundations, lifting them up and tossing away the boards and heavy timbers like feathers. Intermingled with the roar of the waters could be heard the screams of the women and children."

"They sat on the levees on the river bank, crying and shivering. It was dreadful."

RESCUES BY BOATS
Although in a state of nervous tension from her experience, Mrs. MacNeill went to former Governor Parker, begging him to send boats at once to rescue the people.

"The shots may not have aroused everyone," she added. "I am afraid people whose homes were near the crevasse may have lost their lives."

VOTERS' LIST UP THREE THOUSAND

New Names Added to Victoria and Esquimalt Provincial Lists

Approximately 3,000 names were added to the provincial voters list for the Victoria and Esquimalt district electoral districts, G. H. Mahon, registrar of voters reported upon the close of the Court of Revision yesterday.

The court offered the last opportunity for voters to get on the list before the 1927 revision and although only about twelve new applications were made yesterday, the court was busy with voters seeking to make sure that their names were on the list.

Since the lists were thrown open to applicants at the beginning of the year, 3,070 registrations were made for the Victoria list, and 290 for the Esquimalt and district list. There were 1,500 changes of address in Victoria city and district, Esquimalt.

Objections on account of removal and death numbered 350 in Victoria city and 267 in Esquimalt and district. Oak Bay is included in Victoria for the Provincial Voters' List.

The registrar is now open to take registrations for the 1928 list.

BRITISH SPOKESMAN NOW LEAVES HANKOW

Departure of B. Newton Indicates Radical Cantonese Ministry's Career Ending

Peking, May 17.—Basil Newton, representative at Hankow of the British Minister to China, is understood to have been recalled. This is interpreted here as a gesture of British disapproval of the Southern or Nationalist Government under the leadership of Eugene Chen.

London, May 17.—British official circles hold the view that withdrawal of Basil Newton as the British representative at Hankow marks the passing of the Hankow Nationalist regime as an important factor in the Chinese situation. It is stated Mr. Newton has been definitely withdrawn, that there is no intention of sending him back and that he is proceeding to Shanghai to confer with the British Minister, Sir Miles Lampson, on the general Chinese situation. Lampson left for Shanghai yesterday.

There is no intention at present, it is stated, of sending any British representative to Nanking, seat of the moderate Nationalist regime recently founded by the adherents of General Chiang Kai-shek.

MAIL IN RAILWAY WRECK IS TRACED

Ottawa Checking up Registered Letters Destroyed Sunday Near Nipigon

Mail Car and Contents Burned When C.P.R. Train Was Derailed

Ottawa, May 17.—A full inquiry respecting the destruction of all the registered mail destroyed in the wreck of the Imperial Limited train of the Canadian Pacific Railway near Nipigon, Ont., early Sunday morning is being conducted by the Postoffice Department, according to an announcement to-day.

The investigation probably will take several weeks at least, as the mail coach, which was burned to its iron frame together with its contents, carried registered mail all the way from Victoria and Vancouver and various points en route. In the meantime, inquiries received at the department from persons who had been expecting registered mail from the West will be dealt with as information in each case is gradually procured.

CLAIMS FOR COMPENSATION
No claim for compensation through loss of registered mail has as yet been received. All claims of this nature, it is stated, probably would be considered under existing postoffice regulations, which provide for a scale of indemnity according to the postage paid. Under these regulations the maximum compensation which may be paid is as follows: \$25 where a ten-cent fee has been paid; \$50 in cases of a 20-cent fee; \$75 where a 30-cent fee has been paid, and \$100 in cases of payment of a 40-cent fee. In no instance, however, can the compensation allowed exceed the actual value of the loss.

LABORITES RETURN TO BRITISH HOUSE

Members Will Share in Continued Debate on Trades Union Bill

London, May 17.—After thoroughly debating the question as to whether Labor should abstain from participating in the debate on the Government's Trades Union Bill in the House of Commons, the Parliamentary Labor Party, at a meeting this morning, decided it would be the best policy to attend the remainder of the debate.

The Laborites, headed by Right Hon. J. R. Clynes, walked out of the Chamber in a body yesterday in protest against the Government's action in limiting the debate on the bill to sixteen days. The measure would outlaw both strikes and lockouts of a coercive nature and was framed as a result of last year's general strike.

Leaders of Labor Party Declare For White Australia

Canberra, Australia, May 17 (Canadian Press Cable via Reuters).—The Federal conference of the Australian Labor Party, meeting here, has agreed to several important amendments to the party's political platform, the most notable one dealing with the development of a white Australia as part of the British Commonwealth of Nations.

Previously there had been no reference or recognition by the party of Australia as an integral part of the Empire.

The conference also declared immigration should be strictly regulated and that compulsory military training should be abolished.

DECLARES NEED FOR RURAL POPULATION

Canada Needs More People on Land, Says Rev. D. M. Solandt

"How can we in Canada secure an intelligent, a happy and permanent population, especially in rural sections?" asked Rev. Donald M. Solandt, associate general manager and book steward of the United Church of Canada, in an address in Centennial Church last night on "The Intellectual and Spiritual Background of National Life."

"We have a country of boundless possibilities in soil and climate," he said, "but already our population is in the cities."

"When one faces great national problems it is well to look to other countries to see what is being done by them with similar problems. We have been doing during the last few years along the line of nation building."

In 1917 a group of educational statesmen of Britain decided that there was something lacking in the intellectual and spiritual background of national life. A representative mission was appointed and after three years of careful work in the course of which they reviewed all the different

Stomach Gas Drives Man From Bed

TRY MAGNESIA FOR STOMACH TROUBLE

To Neutralize Acidity and Fermentation. Prevents Indigestion, Sour Gas, Stomach

People who suffer from indigestion usually have tried pepsin, charcoal, drugs and various digestive aids and get little more than slight temporary relief—sometimes not even that.

But before giving up to chronic distress, try the effect of a little Magnesia—Magnaesia—not the ordinary commercial carbonate, but the pure, natural, Magnesia which you can obtain from practically any druggist in either powder or tablet form.

Take a teaspoonful of the powder or four compressed tablets with a little water after your last meal, and see what difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach and sour, making gas, wind, flatulence, heartburn and the bloated, heavy, lumpy feeling that seems to follow every meal. You can now enjoy your meals without a fear of indigestion.

You can now enjoy your meals without a fear of indigestion.

But before giving up to chronic distress, try the effect of a little Magnesia—Magnaesia—not the ordinary commercial carbonate, but the pure, natural, Magnesia which you can obtain from practically any druggist in either powder or tablet form.

Take a teaspoonful of the powder or four compressed tablets with a little water after your last meal, and see what difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach and sour, making gas, wind, flatulence, heartburn and the bloated, heavy, lumpy feeling that seems to follow every meal. You can now enjoy your meals without a fear of indigestion.

LIBERAL VICTORY IN QUEBEC MEANS PEOPLE DESIRE STEADY DEVELOPMENT, SAYS PREMIER

(Continued from page 1)

carried out in Gaspé, where the poll was deferred until next Monday, May 23.

SAUVE POSITION
No statement has yet been given out by Arthur Sauve, Conservative leader, and much interest surrounds his expected declaration. During the campaign Mr. Sauve made it clear that if he were not returned with a majority he would resign the leadership of the party.

SWEEP IN QUEBEC
There were several interesting features in the election, not the least noteworthy being the clean sweep Mr. Taschereau made of Quebec City and district. Quebec County and Quebec Centre were restored to the Government fold. In Hull, the Conservative candidate faced a divided Liberal electorate, there being three Liberals in the field. The Opposition took the benefit of this dissension. Three Rivers was the only other seat gained by the Conservatives from the Government. Six Montreal districts were captured by the Liberals and none was lost in return.

POLICY OF DEVELOPMENT
Mr. Taschereau has frequently reiterated that he will continue to pursue the policy which he has followed in the Legislature—the encouragement of public works, the development of the natural resources of the province and the development of hydro-electric power. When crisscrossed over resources to foreign interests, the Premier replied that the exploitation of the province was open to all and no special interest was

ALL MINISTERS RE-ELECTED
All the members of the Taschereau Cabinet were elected.

In Montmorency the Premier was re-elected by acclamation, as was Hon. J. E. Caron, Minister of Agriculture, in the Magdalen Islands.

Arthabaska returned Hon. J. E. Perreault, Minister of Colonization, Mines and Fisheries, by 1,400 majority. Mr. Caron, Minister of Agriculture, in the Magdalen Islands.

Arthabaska returned Hon. J. E. Perreault, Minister of Colonization, Mines and Fisheries, by 1,400 majority. Mr. Caron, Minister of Agriculture, in the Magdalen Islands.

Arthabaska returned Hon. J. E. Perreault, Minister of Colonization, Mines and Fisheries, by 1,400 majority. Mr. Caron, Minister of Agriculture, in the Magdalen Islands.

DIAMOND JUBILEE GROUP ORGANIZES

Sub-committees Getting Down to Active Work on Tentative Plans

Sub-committees of the Diamond Jubilee Group are getting down to work in earnest this week, with meetings of the parade, pageant and other committees held in the headquarters at 1187 Government Street last night. The general executive will meet at 8 o'clock Wednesday evening to discuss progress made and to receive further suggestions.

While a definite programme has not yet been struck, the preparation of a programme and budget to finance it is now receiving the attention of committees. From material already in the hands of the committee an outstanding plan can be prepared for Victoria's participation in the nation-wide ceremonies.

The Junior Chamber of Commerce has undertaken to arrange for a sports programme, under the co-operation of W. J. Kennedy, and in this connection will broadcast an appeal to all organizations to advance suggestions as to the preparation of a plan representing fully all interests in athletic and other circles.

Every organization interested in sports and athletics is invited to lend a hand, and from the best ideas advanced a plan will be prepared in which all will share, it is stated.

PREMIER PROGRESSES IN HEALTH STEADILY
Lack of advice from Rochester, Minn., was accepted at the Parliament Buildings to-day as indicating that Premier Oliver is progressing favorably after his recent operation. Physicians in charge of the Premier telegraphed over the week-end that they would advise his family if complications occurred and the fact that no further advice since Sunday have been considered necessary is accepted as meaning that Mr. Oliver continues to progress.

ROADS ARE PUT IN FINE SHAPE
(Continued from page 1)

A programme of bituminous surfacing in the Fraser Valley was mapped out—Fraser Valley residents who had travelled the Malahat recently, reported the excellent condition of the island Highway and it was agreed that this system should be followed in the Valley in municipal and Government work. This will be started at several points to provide better road facilities for residents.

CRANE

CRANE BEAUTY IN THE OPEN. CRANE QUALITY IN ALL HIDDEN FITTINGS

Location of the new Savona Bridge across the Thompson River—West of Kamloops was decided upon by engineers of the week-end. The viaduct will stand about 1,000 feet down the river from the present bridge.

Tenders are being called for four and one-half miles of road from Prince Rupert eastward on Kalen Island. This will form the first unit of a highway to Terrace, to which point the existing road system is being extended.

The Public Works Department is congratulating itself on securing the services of Ernest Smith, former engineer of the department at Prince Rupert. He is an engineer of wide experience and training.

Teach your children to use Cuticura Soap because it is best for their tender skins. Assisted by occasional applications of Cuticura Ointment to first signs of irritation or dandruff, it keeps the skin and scalp clean and healthy. Cuticura Talcum is cooling and soothing.

Sample Each Free by Mail. Address Canadian Depot: Cuticura, Ltd., Montreal. Price, 35¢ per box. One-cent boxes of Cuticura Shaving Stick 25¢.

PISTOL FIGHT ENDED WITH MAN'S DEATH

Rum Believed Cause of Gang's Battle in New York; One Arrest Made

New York, May 17.—A pistol battle with between six and nine men participating and resulting in one death

culminated last night in the arrest of George Komar, twenty-eight, a book-keeper, on a charge of homicide. The shooting was done in an office building on Broadway at Herald Square. The man killed was Abraham Rubenstein, thirty. The body was found in an office where Komar was employed. Rubenstein's death, police believe, was the outgrowth of a bootleggers' feud.

SAN FRANCISCO DEATH

San Francisco, May 17.—Samuel Blesinger, for many years one of the leading hide merchants on the Pacific Coast, died at his home here yesterday. He was one of the pioneer hide dealers in the West, and had branch offices in several Pacific Coast cities.

SUMMER SCHOOL TO OPEN HERE JULY 4

Expect Over 300 Teachers to Attend Victoria Classes From All Districts

Department Plans Many Courses in Practical and Academic Subjects

With teachers present from every district in the Province, the Provincial Summer School will open in the Victoria High School on Monday, July 4. It was announced to-day. The classes will continue until August 2. Reports received by the Department of Education here indicate that between 300 and 350 teachers will attend the school this year to improve their training and standing in their profession. Applications for admission to the school should be made immediately, and will be received up to June 18. Thirty-eight leading educationalists will form the staff of the Summer school, providing an extremely wide variety of courses. Many of these courses are of a practical nature, including manual arts, commercial art and craftsmanship of various kinds. Home economics and health training will be featured in the curriculum, which also includes ample training in academic subjects.

CONVICTED INDIAN HAS OPERATION

J. Sankey, Under Sentence of Death, is Now in Hospital in Vancouver

Vancouver, May 17.—Joe Sankey, Port Simpson Indian, who stands under sentence of death for the murder of Loretta Chisholm near Port Essington, B.C., a year ago, has been moved from the Oakridge Prison to the Vancouver General Hospital to undergo an operation for tubercular glands of the throat. His condition is said to be serious.

Although notice of appeal to the Supreme Court of Canada is said to entitle Sankey to a further reprieve, the execution date, set on the last day of the month, stands on the record. It is May 23. It is learned, however, that the Attorney-General's Department will apply for a further reprieve some time this week.

MRS. RUTH SNYDER IS NOW IN SING SING

H. J. Gray, Convicted at Same Time of Murder, Also Put in That Prison

Oswining, N.Y., May 17.—The gates of Sing Sing Prison swung open yesterday and admitted Mrs. Ruth Snyder and Henry Judd Gray and clanged shut behind them. Barring success in appeals, the Queen's Village housewife and the corset salesman, jointly convicted of the murder of her husband, will never pass through the gates again alive.

The trip from Queen's County jail was made at breakneck speed and with a heavy escort. As the two caged prisoners swung away from the jail half a dozen armored motor-cyclists led the way through traffic held up at every intersection to let the party through.

MOSCOW PROTESTS RAID IN LONDON

Moscow, May 17.—A note from the Soviet Government protesting against the raid on Soviet House in London was handed to the British Charge d'Affaires here to-day by Maxim Litvinoff, Soviet Acting Foreign Minister.

THREE CALGARIANS BITTEN BY MAD DOGS

Calgary, May 17.—Three persons have been bitten by mad dogs in this city, cases of four dogs have been diagnosed as rabies, and several other dogs that died previously are believed to have had the disease, and it is feared other dogs in the city have contracted the rabies, which at present is only in the incubation stage.

Sunday afternoon a five-year-old boy's face was badly lacerated by a bulldog, Dr. C. S. Mahood is attending the case, while the dog is held under surveillance.

A mother and her little girl were bitten by their house dog Sunday. They are being treated and the dog is locked up.

Acting Mayor R. W. Ward has wired the Federal Minister of Agriculture as follows:

"Positively proved rabies exists in this locality. Situation serious. Urge you take immediate action under section 7 of Order-in-Council, dated August 10, 1905. In virtue of the Animal Contagious Disease Act 1905."

If the Minister agrees to the acting mayor's request, citizens will be called upon either to tie or muzzle their dogs. All dogs found at large after the issue of the order would be taken to the city pound and destroyed.

Nungesser-Coli Monument in France

Paris, May 17.—A monument to the attempt of Captain Charles Nungesser and Capt. Francis Coli to fly from Paris to New York will be erected on the cliffs above the town of Etretat, where they left French soil, the International League of Aviators noted yesterday on the anniversary of its foundation.

The members made clear, however, that they still held out hope the fliers would be found.

PREMIER KING WIRE CONGRATULATIONS TO LIBERALS OF QUEBEC

Quebec, May 17.—"Please accept my hearty congratulations and those of my colleagues for the splendid appropriation of the Province of Quebec has given to your administration. The Liberals of all the provinces of Canada rejoice with you on this memorable victory."

This is the text of a telegram received by Premier Taschereau from Premier King to-day.

Hon. J. A. Cross, Attorney-General of Saskatchewan, wired that the electorate had rendered to the Quebec Government "a well-merited and admirable tribute."

RAMSAY MACDONALD RETURNS TO LONDON

Ex-Premier of Britain to Sail To-night From New York

New York, May 17.—Ramsay MacDonald, former Labor Prime Minister of Great Britain, who is just completing a month's visit to the United States, believes prohibition is a great praiseworthy effort to keep people decent and does not merit the abuse of visitors who find it a subject for smartness.

"So many of our smart people have been over here and sneered at the prohibition law, but when I go back I am going to take the other side," he said. "It is a great effort to keep people decent and to enable them to find it easier to do their duty by their families and to spend their money on necessities."

While stating his recent illness had prevented his seeing enough of the enforcement of prohibition to venture an opinion of this phase, the British labor leader said he would like to see a great moral appeal to all good citizens to respect the law.

"Read Plato on the sacredness of the law," he said.

Mr. MacDonald, who came to the United States for an eleven-day visit to renew acquaintances of a honeymoon trip many years ago, and then spent most of his time in a Philadelphia hospital with a throat infection, will leave to-night for England with his daughter, Isabel.

INTER-CITY ROSE SHOW ON JUNE 18

Victoria, Vancouver and Seattle Will Compete

June 18 was set as the date of the rose show to be held under the auspices of the Oak Bay Rose Society, at a meeting of the committee held under the chairmanship of H. R. Bevan last night.

Three cities will strive for honors, Victoria, Vancouver and Seattle, rose growers having entered an inter-city contest in which the best blooms which can be gathered in each city will be in competition.

The competition was announced earlier in the season and keen rivalry was created. Growers in Victoria, Oak Bay and vicinity were asked to cooperate with the committee in their efforts to gather the first blooms to make up the Victoria exhibit.

Rose growers interested in the show and prospective members were asked to communicate with David Reid, 1053 David Street.

LOSSES IN PORTLAND RESULT FROM WIND

Plateglass Windows and Street Lights Shattered During Violent Storm

Portland, May 17.—A southeast gale whipped through Portland late last night and continued early this morning. The wind reached an unusual velocity for this district. It was accompanied by little precipitation.

Wire service was crippled. Plateglass windows in buildings on several exposed corners were blown in and streets were strewn with glass from the broken street light globes.

In the residential districts the streets were littered with branches.

VANCOUVER BUILDERS ENGAGE IN CONTEST

Vancouver, May 17.—Plumbing and steamfitting contractors of this city will operate on an open shop basis in future, it is announced by the Vancouver Association of Sanitary and Heating Engineers.

For years the master plumbers of Vancouver have observed the closed shop, but in future they will run wide open, it is declared.

The rate of pay will be \$8.50 a day, the same as that in force before May 1, when the plumbers walked out to demand \$10 a day and recognition of the five-day week.

Vancouver Children's Aid Society is to Have New Head

Vancouver, May 17.—Resignation of A. H. Hanna as superintendent of the Vancouver Children's Aid Society has been accepted by the board of directors, it is announced.

H. R. Glass, president of the society, said the action taken by the directors was not in any way concerned with the recent detention of the superintendent by the United States immigration authorities at Blaine, Wash. The move became necessary in order that the society might develop the type of work contemplated, he said.

A meeting of the executive will be held this afternoon to consider the appointment of a successor to Mr. Hanna.

Interesting Values For the Half Day's Selling

Here are ten specially selected values for Wednesday morning's selling. Read each item carefully, they will be sure to interest you.

Sturdy Pilgrims of Open Road Return With Thrilling Tales

Fifteen Model School Boys Bicycle to Detroit on Twelve Day Trip, and Tell Memorable Visits With Jack Miner and Ty Cobb

TECUMSEH'S GRAVE OBJECT OF SEARCH

A visit to the Jack Miner sanatorium, a "close-up" meeting with Ty Cobb, a search for Tecumseh's grave, and events that stand out in the twelve-day bicycle trip to Detroit, told by a group of 15 boys, the sturdy pilgrims of the open road, returned to their homes in Ontario, and told their tales of adventure.

The boys, who were accompanied by their parents, started from Toronto on Monday, July 4, and rode to Detroit, where they arrived on Sunday, July 18. They had a most interesting trip, and saw many sights of interest.

One of the boys, Jack Miner, told of his visit to the sanatorium where he had seen the famous baseball player, Ty Cobb. He said that Cobb was a very nice man, and that he had been very kind to him.

Another boy, Ty Cobb, told of his visit to the grave of Tecumseh. He said that he had been very interested in the grave, and that he had seen many interesting things.

The boys also told of their visit to the Detroit Zoo, and of their visit to the Detroit Stadium. They said that they had a very good time, and that they had learned many things about the world.

The boys' trip was a most successful one, and they all returned home with many interesting tales to tell.

These 15 BOYS had a "whale of a time"

Rode 500 Miles in 12 Days; Saw Jack Miner, Ty. Cobb and Ford's Plant and a Big League Ball Game

THEY started from Toronto and rode around the head of Lake Ontario to Niagara Falls, then through the Lake Erie Counties to Jack Miner's famous bird sanctuary, where they were shown around the farm by Jack himself; then, on to Windsor and across to Detroit. As guests of Ty Cobb and the Detroit Baseball Club, they saw the Tigers play in a big league ball game. And they were also shown through Henry Ford's automobile plant.

It was a whale-of-a trip for fifteen boys and they came home on their wheels stronger, healthier and better in every way than when they left.

Ask your Dad to get you a C.C.M. and let you get into this game. It's an education to take trips like that. Bicycle riding develops your muscles and all the vital parts of the body. The fresh air fills you with "pep".

Ride a C.C.M. on Such a Trip

The first essential is a good bicycle. Get a C.C.M. Ask any of the fellows. It's the wheel that "stands up" to the heavy going. It's the wheel that gets ahead. On the good roads, you hardly feel the pedals. It has the Triplex Hanger which seems to be a regular little power plant of itself.

5 Big C.C.M. Features

The C.C.M. is a quality bicycle. It is the wheel with

- 1 The Triplex Hanger, for smooth, easier pedalling.
- 2 The Hercules Coaster Brake, the "little fellow with the giant grip".
- 3 Gibson Pedals, one piece, aluminum frame, rustproof.
- 4 Dunlop Tires, fully guaranteed.
- 5 Twenty-year nickel-plating.

Any C.C.M. Model is Yours For a Little Down

Ask any C.C.M. Dealer about the easy payment plan, under which you can purchase a bicycle now and pay for it while enjoying its use. A small payment down and a little a week enables you to own a top-quality bicycle in whatever model you prefer. See your Dealer today.

PREMIER TASCHEREAU'S GREAT VICTORY

PREMIER TASCHEREAU IS FULLY justified in saying that the striking victory which his Government achieved at the polls in the Province of Quebec yesterday was an "approbation of the policy of progress, initiative, sane administration, and of the union of the best elements of our people."

The Premier will meet the Legislature at its next session with a following of seventy-two and the assistance of the two Independent Liberals, while the Conservatives under Mr. Sauve's leadership will number only ten all told as compared with eighteen in the last Parliament.

Interest will attach to the statement of the Opposition leader. He made it clear during the election campaign that if his party should go down to defeat, he would feel compelled to relinquish its leadership. Not only has he not done as well as he did in the last general election; he has lost no less than ten seats, six of them in Montreal, which in itself was a highly significant endorsement of the Government. One contest still has to be fought, in the constituency of Gaspé, and it is expected that when the ballots have been counted there next Monday night another supporter of Premier Taschereau will have been returned. If Mr. Sauve was really serious in his pre-election declaration, therefore, it is difficult to see how he can do anything else than to turn the reins of his party over to somebody else.

Apart from the approval of the people of Quebec now have expressed of the manner in which the Liberal Government has managed their business, the victory which Premier Taschereau has just scored may be taken as something in the nature of a vote of confidence in the Liberal Party generally, and another nail in the coffin of Conservative hopes of penetrating the Ancient Province. Several Cabinet Ministers from Ottawa took active part in the campaign, which, incidentally, was not without its spirited moments.

It is unique in the political annals of this country that a Government which has been in office for thirty years should be returned with a majority which almost wipes out its opposition in the Legislature. This is not always a good thing; but the people of Quebec apparently have no misgivings in their case. In fact, the achievements of the Taschereau Administration, as shown by the record, insure the continuance of progressive policies.

Outstanding in the result, of course, is the convincing evidence which it furnishes that Liberalism and Liberal policies are more in favor than ever. Liberals throughout the country will be pleased with this vindication in the Ancient Province.

INTERNATIONAL GOODWILL DAY

ALL OVER THE WORLD INTERNATIONAL Goodwill Day is observed every year. Its observance in this Province will take place tomorrow and a special issue of the British Columbia Gazette contains the provincial Government's proclamation to that effect.

International Goodwill Day is just what its name implies. It is intended that every year a day shall be given to the consideration of the importance of maintaining friendly relations between the nations of the world. It provides an opportunity for teachers to discuss the subject with their scholars in the classroom, for parents to discuss it with their offspring within the family circle, for service clubs and various other progressive bodies to give it special thought.

It is particularly important that the desirability of maintaining the peace of the world should be impressed upon the mind in its most receptive state. Millions of the world's boys and girls who are now receiving their education knew little or nothing of the horror and the privations for which the Great War was responsible. Half of them were unborn and the other half too young to understand what was going on or what it since has meant to the economic and social fabric of the universe. But if these occasions shall be seized, and the full significance of international goodwill emphasized in all its aspects, a will to peace will be created in the rising generation, and that "moral force" of which the Earl of Oxford spoke the other day will increase in volume and influence.

It is to be hoped that the people of British Columbia will measure up to their full responsibility in the matter tomorrow. It is not a spectacular observance that is asked; but our citizens should consider it an obligation to be discharged.

MR. MASSEY'S JOB

ALTHOUGH THERE IS NO GUARANTEE that the United States Government will change its mind in respect of the new immigration ruling as it involves Canadians who are living in Canada and working on the other side of the border,

Secretary Kellogg's statement to the effect that he hopes for a "generous and amicable settlement" would appear to indicate the possibility of finding a solution for the problem without inflicting hardship on anybody.

The new regulation which the Washington authorities intended to enforce on June 1 does not concern Canadians who were born in this country. They may still cross and recross the border without any additional formality. But British-born Canadians, or naturalized Canadians, must comply with the United States quota law and wait their turn. If the new regulation should become operative, therefore, several thousands of British-born and foreign-born Canadians who are living in this country and working in the United States at various points adjoining the Ontario border would have to surrender their means of livelihood, for the time being at any rate, since the lists are full.

It is obvious that Canada does not like the idea of losing these citizens under our neighbor's quota regulations; but it is equally obvious that the Dominion authorities like less the idea of seeing them deprived of their means of livelihood for even so short a time as may be necessary if the regulation goes into force. Nor is it an altogether one-sided question which Mr. Massey is arguing at Washington. Quite a large number of Americans, too, are working on this side of the border and living in their own country.

This question once again throws into relief the absolute necessity of coming to a decision about our citizenship. As far as our laws are concerned, no discrimination is shown in any particular. All are treated alike, whether they be native-born Canadians, British-born, or foreign-born and naturalized. But when our people enter into dealings with other countries, more especially with the United States, the family album is consulted and pretty badly thumb-marked. This is no doubt one of the most ticklish jobs with which Mr. Massey has had to deal so far—and it is in capable hands.

"BOBBY" TO WRITE FOR THE TIMES

READERS OF THE TIMES, PARTICULARLY those who play golf, will have noticed with interest that to-morrow's issue will contain the first of a series of articles on the royal and ancient pastime from the pen of the famous "Bobby" Jones, described by nearly all the prominent professionals in the realm of golf as the greatest exponent the world has ever produced.

No golfer, be he professional or amateur, will seriously argue that the average player's game can be put in the scratch class by following newspaper articles; but it must be admitted that the advice of such a brilliant player as the young Atlantan who is to write for The Times is extremely helpful and must make for substantial improvement if the player will take it and practice assiduously.

WHAT OTHER PAPERS SAY

AN ELEMENTAL STRUGGLE
From The Indianapolis News

The states along the Mississippi River are engaged in a real battle with elemental forces. The whole United States will have to be drawn into the efforts to prevent the ravages of high water in the Mississippi River. The government and the states have done effective work in levee building, but whenever the levee is built strong, and high enough to resist a record flood such as has been expected, the old Mississippi exerts herself and makes a new record.

In the summer time at low water stages the river locks placid enough and the levees look mountain high, but with the water from almost half of the United States poured down into the delta the aspect is different. The problem is one that belongs not to the local states that get the water, but to that vast area whence the water is drained. In other words, it is the Nation's battle.

Queer Quirks of Nature

By Austin H. Clark

In late May and June, and until the middle of July, you sometimes see this moth about electric lights, or find its crushed remains upon the street or sidewalk. This is our largest moth, measuring usually from five to seven inches across the wings. It is so large that when flying it is commonly mistaken for a bat.

It is a very pretty moth, gray, in y or less shaded with red; the margins of the wings are earthy gray, and each wing has a narrow line of white. The feelers or antennae are beautifully feathery, much broader in the males than in the females.

This moth, called the cecropia, is really very much more common than it seems to be, but it flies only after dark and usually high above the ground, the females with a strong erratic-dodging flight, the males almost in a straight line.

It will sometimes come to lights, but as a rule it does not pay much attention to them. It spends the day quietly resting in the trees or bushes, usually high up among the branches.

A curious thing about it is that it never eats. In fact it cannot eat, as its mouth is so imperfect as to be quite useless. It lives entirely on the surplus food material stored up within its body. From September until the following June or later, ten months more or less, it lives without anything at all to eat.

Being an enormous moth, the cecropia naturally has an enormous caterpillar. These huge caterpillars, of a beautiful green color, are quite common in late summer. They feed on about fifty kinds of trees and shrubs.

A THOUGHT

The hoary head is a crown of glory.—Proverbs xvi, 31.
The evening of life brings with it its lamps.—Joubert.

Do You Mean What You Say?

YES MAN

5-10
"YES MAN"

In every organization which is dominated by a man of strong character there will be found one or more "yes" men whose chief posture in life is that of bowed heads and bended knees. This same man who before his superiors has been all smiles and gracious submission frequently takes real pleasure in bullying his gentle wife who, in her turn, is forced to play "yes man" to him. There are "yes men" on the schoolboys' playground, and in every social group, and they can be identified in each instance by their lack of independent judgment and inability to say "no" in the face of opposition.

Canadian Questions and Answers

MANUFACTURED PRODUCTS

Q.—What are the figures regarding manufactured products?
A.—Manufactured products in Canada are steadily rising. In recent years, totalling \$2,751,000,000 in 1926; \$2,700,000,000 in 1925; \$2,695,000,000 in 1924; \$2,481,351,554 in 1923. These figures represent the net production value as compiled by The Financial Post.

The WEATHER

Daily Bulletin Prepared by the Weather Department

Victoria, May 17—5 a.m.—The barometer is abnormally low over the interior of this Province and rain has been falling in the Pacific Slope. Snow is falling in Manitoba.

Reports

Victoria—Barometer, 29.78; temperature, maximum yesterday, 59; minimum, 46; wind, 4 miles W. rain, 11; weather, cloudy.

Vancouver—Barometer, 29.74; temperature, maximum yesterday, 64; minimum, 49; wind, 4 miles E. rain, 1.50; weather, cloudy.

Kamloops—Barometer, 29.80; temperature, maximum yesterday, 68; minimum, 51; wind, calm; rain, 70; weather, raining.

Prince Rupert—Barometer, 29.84; temperature, maximum yesterday, 56; minimum, 42; wind, calm; weather, cloudy.

Steveston—Barometer, 29.76; temperature, maximum yesterday, 56; minimum, 44; wind, 30 miles N.W. rain, 32; weather, cloudy.

Talooch—Barometer, 29.78; temperature, maximum yesterday, 64; minimum, 46; wind, 30 miles W. rain, 50; weather, raining.

Portland, Ore.—Barometer, 29.64; temperature, maximum yesterday, 74; minimum, 48; wind, 16 miles S.W. rain, 64; weather, cloudy.

Seattle—Barometer, 29.80; temperature, maximum yesterday, 64; minimum, 46; wind, 12 miles E. rain, 24; weather, cloudy.

San Francisco—Barometer, 29.16; temperature, maximum yesterday, 67; minimum, 53; wind, 10 miles N.W. weather, clear.

Swift Current—Temperature, minimum yesterday, 44; rain, trace.

Calgary—Temperature, maximum yesterday, 60; minimum, 40; rain, trace.

Edmonton—Temperature, maximum yesterday, 62; minimum, 40; rain, 66.

Winnipeg—Temperature, maximum yesterday, 72; minimum, 30; snow, 2.

KIWANIS EVENT

Seattle, May 17.—James P. Neal of Walla Walla, international trustee, presented the University Kiwanis Club with its charter at a dinner here last night. A United States flag was presented by Sam Melrose, president of the Seattle Kiwanis Club, and a Union Jack by George Hansell, president of the Vancouver, B.C. Kiwanis Club.

Diamond Jubilee Frolic.—Sons of Canada Hall, Friday, May 27. Admission 50c. Tombola prize. \$50.

JOTS FROM GEOGRAPHY

THE GULF STREAM, a geographical oddity, is a well defined current in the Atlantic ocean. The color of the Gulf Stream is in marked contrast to the dull green of the ocean, being a deep blue. The Gulf Stream moves in a northeasterly direction, after passing through the straits of Florida. The best current makes the Bermuda Islands some islands in their nature. Between these islands and Nova Scotia the stream is 60 miles broad, 2,000 feet deep, and moves at a rate of three knots an hour.

VICTORIA DAY

To the Editor:—Victoria Day, May 24, is upon us and I am sure everyone will want to make the celebration a success and every detail of the programme attractive to our citizens and to the many coming in from Vancouver and outside points.

The May 24 celebration committee do not wish to clash with or do anything which would affect the larger event on July 1, and we are working under great difficulties and want the co-operation of every business man and others to decorate their windows, display their flags and bunting, etc., and in every way possible help to make the day a triumph.

May I appeal to the loyalty of all and ask you to stay in Victoria on the day and enjoy the various attractions provided in a lengthy programme.

JNO. HARVEY,
Chairman of the celebration committee
May 17, 1927, 714 Cook St., City.

PARSONS BRIDGE

To the Editor:—The action of the Provincial Government in deciding to build a temporary structure at Parsons Bridge while the new concrete bridge is being built is a commendable one. It will do away with a tiresome and to a certain extent dangerous detour. Of course it will add considerably to the cost of the bridge, and the natural political event will be Mr. Pooley and his band of faithful squawking about the cost of the bridge. The decision to build a substantial concrete bridge at this point shows foresight and good business on the part of the present Government, and it deserves far greater support from the district, and from the whole of the south end of the Island for its progress of this district are so kind to Mr. Pooley and his party at election time is beyond my comprehension.

It seems strange that we have such a large number of voters who are totally oblivious to progress and simply vote for a family name which happens to be familiar and absolutely nothing beyond.

Langford, B.C. LANGFORD LUKE.

UNTRUE

To the Editor:—Will you allow me space to deny the truth of a report appearing in your newspaper under the date of May 18, 1927 I am there represented as being "among the prominent ones who were out boosting in Vancouver for 'Miss Victoria'." Flattering though this news item may be intended to be, it is an unqualified falsehood. I have not now, nor have I ever had the remotest interest in "beauty contests," either in general or in particular. If, however, this were the case, time scarcely permits me to indulge in such luxuries.

Trusting you will give this statement as much publicity as the notice it merits.

IRA DILWORTH,
Principal.

May 17, 1927.

Sidney

Sidney, May 17.—The North Saanich evening branch of the Women's Auxiliary of the St. Andrew's and Holy Trinity Church, formerly the Girls' Auxiliary, will meet on Monday evening, May 22, at 8 o'clock, at the home of Miss Irene Frost, Patricia Bay.

W. Sibbald, who has been spending the past few months at Deep Cove as the guest of Mr. and Mrs. J. Copithorne, left on Monday for his home in Calgary.

John Copithorne of Deep Cove left on Monday for his ranch, Jumping Pond, Alta., for a period of several months.

Miss Connie Beales of Elk Lake was the week-end guest of Miss May Copithorne.

The regular monthly meeting of the St. Andrew's and Holy Trinity branch of the Women's Auxiliary will be held at the home of Mrs. Herchner, Deep Cove, on Wednesday, May 18, at 3 o'clock.

SOVIET IS TO SEND NOTE TO BRITAIN

Moscow to Protest Against
Raid on Russian Offices in
London

Moscow, May 17.—With early delivery of a Soviet note of protest to Great Britain in prospect, the Moscow newspapers continue to print articles attacking Great Britain, rehearsing at length the details of the raid on Soviet House in London, declaring there was brutality and seeking to analyze its motives.

The Pravda, communist organ, says that "the incendiary work of the diabolical" not only is arousing indignation among the British workers, but also among the "industrial bourgeoisie."

The latter are pictured as regarding the die-hard policy with mixed feelings, considering its probable effect upon trade with Soviet Russia.

These persons, The Pravda states, doubtless still retain painful memories of the millions "squandered on Kolchak and Denikine (anti-Bolshevik military commanders), and do not want to engage in new and expensive adventures."

PRESIDENT OF FRANCE HONORED IN LONDON

London, May 17.—The state banquet held in Buckingham Palace last night in honor of the visit to London of President Doumergue of France and Anstide Briand, Foreign Minister of France, was a brilliant event. King George was the uniform of an Admiral of the Fleet.

The guests included the Prince of Wales, Prince Henry and Prince George, Princess Mary, the Duke of Connaught, Premier Baldwin and members of his Cabinet.

The toasts were exchanged in French between the King and President, and were couched in terms of extreme cordiality. After welcoming the French statesmen and referring to the French statesmen and referring to the French statesmen, the King said:

"Much remains yet to be done, but as our two countries helped each other and united forces during the war, so will they continue to work together in the cause of peace, assured by general goodwill."

ERA OF PEACE
In replying, Mr. Doumergue added emphasis to the sentiments of his host by declaring:

"To-morrow as to-day, we will continue to unite all efforts for the defence, consolidation and organization of peace with a view to assuring Europe an era of order and prosperity and saving the world from a return of fearful conflagration."

Queen Mary was present at the banquet.

BUSY DAY

The French President and the Foreign Minister put in a busy day before attending the banquet. They were escorted by the tricolor on the Cenotaph and the tomb of the Unknown Warrior in Westminster Abbey. They visited various members of the Royal Family and received numerous deputations from French and British societies.

The visit of the French leaders will extend over four days.

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, May 17, 1902

A large and influential deputation from the British Columbia Cannery Association had a conference with the Government this morning. Committee work occupied the attention of the Legislature for the greater portion of the afternoon session and good progress was made, with the measures considered.

Forecast—Victoria and vicinity, moderate to fresh winds, generally fair and warm, with occasional showers.

It was reported here to-day that in view of the scarcity of houses in the city, an English syndicate has decided to erect 125 for rental purposes. A remarkable record for British Columbia waters has been set by the St. Princes May which made the trip from Skagway in five days and twenty hours. This record proved to be eight hours faster than the best time of the steamer City of Seattle, the flyer of the Sound city.

Please buy a pencil, Miss

"OH BOTHER, there's that tiresome old woman again. Just because I sympathized with her once."

Then like an arrow came a strange thought.

The office girl's gaze went past the shabby dress, the hopeless coat, and rested on the seamed face with the wistful eyes from which fear looked out—the fear that dwells with the aged poor.

The girl knew her story. Once young of course, and thoughtless, happy with a husband and a home. Then came hard times. Luckless

speculations swept away what little they had. The husband died at the wrong time, and left her unprotected for. The widow drifted here and there... finally to this... selling pencils to people who didn't want them.

So, to the office girl came these drumming questions that would not down—"could this happen to me? Could it? Old, helpless forlorn... no money... unwanted. What can I do to make sure I will never come to this?"

Senior Students Present Picture To High School

Division 1 of the Victoria High School has presented the members of the faculty and students with a beau-

tifully framed picture entitled, "The End of the Trail." The object in view is to create a real school spirit, and show what can be accomplished by hard, determined work for the good of the institution. The method adopted by Division 1, was to print circulars from month to month, covering their work, and selling them to pupils for a small sum.

Wilshire's

Publish This Letter and Let Others Know Where to Find Relief

This Victoria man joins the hundreds who have found relief with I-ON-A-CO, the marvelous Magnetic Health Belt invented by Gaylord Wilshire, and the most widely-discussed invention of the age.

Wilshire's I-ON-A-CO,
1113 Government Street,
Victoria, B.C.

Dear Sir:
I cannot speak too highly of the I-ON-A-CO Belt as a relief for pain, sickness or disease. After suffering from rheumatism, lumbago and run-down condition, I was convinced after three days' treatment that I-ON-A-CO possesses wonderful curative powers. I have now finished one week of treatment and my pains have disappeared. My whole system is toned up and I feel fine.

You may publish this letter as you wish and let others know where to find relief.

Yours respectfully,
E. HOPWOOD,
Metropolis Hotel, Victoria, B.C.

BREAK COMES IN WATERSHED DEAL

Fairservice and Gierin, Lumbermen Bidding on Goldstream Timber, Dissatisfied

City Council Votes Immediate Steps to Collect Payments Outstanding

Amicable relations between the city and Messrs. Fairservice and Gierin, Washington state lumber operators who contracted for part of the timber on the city's watersheds at Goldstream, have been broken off, Alderman Eugene S. Woodward, chairman of the city water committee reported to the City Council last night.

There was a difference of \$90,000 in the price the city thought fair and in the price offered by the timbermen, he added.

The committee recommended the taking of whatever steps were necessary to secure compliance with the terms of its contract, and the council concurred unanimously. The city will proceed first, it is stated, to take legal advice as to the best means of collecting the sum of \$17,250, said to be owing to the city under the terms of the agreement. Alderman Woodward stated the agreement had been the subject of negotiations with a view to altering its terms, but added that no compromise could now be found for the two points of view, that by the contractor holders and the timbermen. The first agreement, it is stated, was one made by Fairservice and Gierin with the former Esquimalt Waterworks Company on a basis of money according to the rate of cutting.

On a flat-price basis the city asked \$380,000 for its timber, after acquisition of the Goldstream system from the former owners Fairservice and Gierin, it was intimated, had offered up to \$270,000 for the concession, but would not go beyond that figure. Pending the negotiations—operations had not yet been commenced, it is understood.

The council ratified the actions of its water committee, and voted to take legal advice on the next step to be taken.

SCHOOL CHOIR TO GIVE CONCERT

Victoria High School Vocal Artists and Musicians to Perform

At 8 o'clock on Friday, May 20, the Victoria High School choir and orchestra will give their annual concert in the auditorium. The conductors of the evening are G. Jennings Burnett and George H. Green.

Leighton Winter, the well-known boy soloist, will assist in the evening's entertainment.

An attractive programme has been prepared as follows: Selection, "Marche Russe" (Gounod); part songs, "The Carnival" (Molloy); "Crystal Streamlet" (two parts, arr. by G. J. B. from Opus 70, No. 1) (Chopin); choir; song, "For You Alone" (Ceschi); Master Leighton Winter, part songs, "Serenade" (Gounod); "Sunlight" (two parts); (G. Jennings Burnett); "Little Con's Prayer" (two parts); (B. Hope); choir; selection, intermezzo, "Zerlina" (Boggetti); orchestra; part songs, "Maiden Waltz" (two parts); (G. Jennings Burnett); "How Sweet the Moonlight Sleeps" (three parts); (G. Jennings Burnett); "The Belle of St. Mary's" (A. E. Adams); (Verse by Misses Alice Dyke, Mabel McLean and Kathleen Ringshaw); choir; piano solo, "Pastorale With Variations" (Mozart); Barbara Fraser; selection, "Un giorno in Venezia" ("Suite Romantique") (Nevin); (a) "Dawn"; (b) "Venetian Love Song"; (c) "Good Night" (orchestra); song, "At Dawning" (Cadmans); Master Leighton Winter; selection, "Just a Cottage Small" (two parts); (Hanley); Miss Gladys Johnson and choir; selection, "Let the Hills Re-sound" (Brindley Richards); choir; selection, "All Arbor University" (Barard); orchestra; accompanists, Misses Louise A. deW. Moore, Barbara Fraser and Rosemary Parfitt.

Tickets may be obtained from High School students or from the office of the school at nominal cost.

Brentwood

Brentwood, May 17.—Mrs. J. W. Sluggert was the hostess on Saturday afternoon of a delightful party in honor of the eleventh birthday of Misses Daisy and Dorothy Sluggert. Games and races were indulged in by the guests, and dainty refreshments were served by the hostess, assisted by Miss Alma Heljer. The tea table was decorated with Spring flowers and a birthday cake occupied each end of the table.

After supper the many birthday gifts were opened and admired by the recipients.

The guests present were Daisy Sluggert, Dorothy Sluggert, Hope Sluggert, Joyce and Lorna Thomson, Alma Sluggert, Corrine Young, Joan and Betty Hearle, Edith Price, Nora Chipperfield, Gilbert Sluggert, Charlie Price and Arthur Young.

The St. Stephen's and St. Mary's W.A. will hold their fortnightly meeting on Wednesday, May 18, at the home of Mrs. Walter Thomson, Mount Newton.

A most enjoyable dance was held in the Institute Hall on Friday evening by the West Saanich Women's Institute. Dogwood and Spring flowers were used in the decoration of the main hall with charming effect. Neary's orchestra provided a good programme, each number being heartily applauded by the dancers. A broom dance was the cause of much merriment. Supper was served at a table decorated with tulip and narcissi by the ladies of the institute under the direction of Mrs. T. Haddon, after which dancing continued until 1 o'clock.

Mr. and Mrs. H. A. Blakey are spending a few days holiday in Vancouver.

A Taylor has returned to Kamloops after spending a week at his home here.

Mrs. H. McQueen left Monday for Vancouver on route to Chilliwack, to attend the conference of Women's Institute to be held during the week.

CITY CUTS BANK LOAN ALMOST HALF

Annual Loan By-law Introduced at \$400,000, \$350,000 Below 1926

Council Sits in Three-hour Session on Varied and Lively Agenda

The annual loan by-law, a measure to authorize the arranging of a \$400,000 credit with the Bank of Montreal at five and one-half per cent, received initial reading before the city council last night. Alderman P. R. Brown, chairman of the finance committee, showed that the by-law called for \$350,000 less than last year, when only \$270,000 had been used, and not more than \$195,000 of which had been outstanding at any one time.

The expenditure by-law for 1927 was also considered in committee and given first readings, being the formal measure bringing the 1927 budget into effect, with a rate of thirty-eight mills, or a reduction of one mill straight from last year's rate of taxation.

Alderman E. S. Woodward told of differences in the water committee on a revised scale of water charges, and stated that he and the water commissioner were of the opinion that the time for revision of charges had come. Personally he favored reductions, with the usual rebate to cultivators of vacant lots, but on some heads other than now in effect. The water committee would report on the question when it had heard its differences, he intimated.

Alderman H. C. Holmes reported progress with the interim zoning by-law, and mentioned help received from architects and builders in the preliminary draft of the interim town planning measure. The zoning committee was finding it increasingly easy to convince people of the wisdom of the measure.

for Constipation

sure, when they had seen more of its terms and the reason for these provisions, he said.

Alderman William Marchant, chairman of the public works committee, returned to the attack on cuts made in the water vote, asking that \$2,100 be added to the figures to include necessary work he thought had been covered. The council split 5-5 on a vote, and the motion lost. Alderman Marchant announced that he would not act this year on the unemployment subcommittee of the works group in the face of the vote.

The northeast sewer agreement with Seanch received final passage, and with its companion measure, the northeast sewer agreement, is now in effect.

Action by the mayor to reopen a tender awarded for 2,500 nitrogen lamps was withdrawn when it was shown that the tender went to the lowest bidder who had an agency in this city.

The council referred to committee several recommendations by the city police board, including provision for a third safety zone for pedestrians at the northwest corner of Port and Douglas Streets. Douglas and Yates and Port and Government will be the scene of other safety zones previously authorized. A request that a consolidation of city by-laws be undertaken to revise, shorten and bring together all civic ordinances was referred to the legislative committee with some verbal comment. In 1921 the city undertook its last revision.

The remission of liquor candy fines in part, urged by the board on the council, was referred to the city solicitor for report without action taken. The commission mentioned Vancouver action to reduce the amounts of similar fines. Mayor Pendray explained he voted against the recommendation at the police board, believing the action one within the province of the Provincial authorities solely.

The sum of \$50 to aid in preparing a city float for May 24 was voted by the council. Alderman John Harvey, as chairman of the Empire Day Committee, Ald. Harvey invited the mayor and council to take part in the parade.

CITY HEALTH RECORD

In his April health report Dr. Arthur O. Price, city health officer, showed that not a single infant under one year of age and of white parents died in Victoria in that month. One Asiatic infant, prematurely born, succumbed. For four months this year the loss of viable infants has been confined to one, with eight deaths among those incapable of sustaining life. Two of the eight in the latter class were Chinese. This places Victoria's health records out in front again for the best record yet attained in infant welfare, as well as attesting to the work of the city's health clinic.

The tender for the printing of the annual report for 1926 was awarded to the Victoria Printing and Publishing Company at \$2.50 per page, plus \$12.50 for 100 additional copies of the school board report. J. E. Buckle was awarded the tender for 15,000 general tax notices, to cost \$158.

The finance committee also recommended a grant of \$200 to the Salvation Army, and the customary remission of taxes on the Y.M.C.A. premises to the extent of \$1,700.

The fire wardens recommended the award of a tender for 1,000 feet of two-and-a-half-inch hose to the Quetta Percha and Rubber Company at \$1,588; and one for eleven-and-a-half dozen firemen's shirts to Turner, Beeton & Company for \$34.75 per dozen. The council was invited to join the Fire Department in an entertainment to be given May 19.

The works committee urged the purchase of a two-and-a-half-ton truck at \$4,300 from the Leyland Motor Limited and a one-ton Federal-Knight truck from the Cameron Motor Company for \$1,765, a trade-in of old trucks taking place in both cases. Residents on Sayward Avenue will be told that they can have a concrete sidewalk there if they will assume half the cost, namely \$660.

The water committee recommended the purchase of pipe and fittings required by the waterworks department from Leith, Murray & Company, Vancouver, at \$5,719.15, the lowest tender received. The tender was \$1,200 below the nearest competitor, explained Ald. Eugene S. Woodward.

KILLIES TO CAMP

The appointment of L. Nicholls as supervisor at Victoria West Park for three months was authorized on motion by the parks committee. Permission was granted by the council to the 16th Canadian Scottish to camp at Beacon Hill during the Diamond Jubilee days.

The land committee recommended sale of city property totalling \$1,520, to the Cameron Lumber Company and A. O. Ralfe, and the lease of city property on the southwest corner of Douglas and Fisgard to the Victoria Petroleum Company for seven years. Old buildings at the site have recently been removed.

Reporting on his trip south M. Kirkpatrick-Crockett said he visited a number of cities, including San Francisco and Los Angeles, and found considerable interest in Victoria property for investment purposes. Land values in the south were prohibitive to the small investor, and many people were turning aside to find an avenue for their idle sums, he believed. The report was tabled pending discussion by the city lands committee, at the request of H. A. C. Dewar.

The council voted itself into a deadlock on the question of permitting riding stables on Heywood Avenue, and rose without action. Aldermen Woodward, Brown, Dewar, and Mayor Pendray were against reopening the discussion. Aldermen Clearhue, Litchfield, Holmes, Mara, and Marchant would have allowed the permit. Alderman Harvey said he would have agreed to either course, but favored delay for further advice. Mayor Pendray ruled the motion to re-open the subject and grant the permit had been lost.

On a report of the parks committee the city plant nurseries at Beacon Hill will be open between 2 p.m. and 8 p.m. Sundays for the benefit of the public. After a three-hour session the council adjourned.

How you'll enjoy a crisp bowl of Kellogg's Pep! Pep is health in a package! A feast of flavor! Wakes up the laziest appetite! Full of nourishment to start the day!

Pep will make you peppy! A ready-to-eat cereal with all the goodness of whole wheat. Rich in vitamins and strength-building mineral elements.

Pep with milk or cream is practically a perfect food. Contains enough bran to be mildly-laxative. Helps prevent constipation. A wonderful food for young folks and folks who like to feel young.

Serve Pep often. Add fruits or honey, for an extra treat. Delicious with pears, prunes, bananas or raisins. Add them, fresh or canned. Put Pep into tomorrow's breakfast! Your grocer has Pep!

AT THE THEATRES

MANY THRILLS IN
CHANEY'S "MR. WU"
ON DOMINION SCREEN

Thrills of a new kind: the haunting mystery of the mysterious Orient, with codes and philosophies that almost pass Occidental belief; these, garnishing a romance delicate as the lotus flower, mark Lon Chaney's new triumph on the screen.

"Mr. Wu" playing at the Dominion Theatre, displays Lon Chaney in a new angle to his old art. As is usually the case in his outstanding plays, Chaney uses intricate make-up for an intricate character, but this time he goes beyond his usual portrayal.

He invades another race for his

CAPITOL CONCERT ORCHESTRA

EIGHTY-TWO-YEAR-OLD PLAYER IN COMEDY

Manager Clifford Denham of the Royal Victoria Theatre calls attention to the fact that of the sixteen stars, headed by John Drew, who are to appear at that playhouse on Monday evening, May 23, for the single performance of "Trelawny of 'The Wells'" in this city, Mrs. Thomas Whiffen is the first player to appear when the curtain goes up at 8 o'clock sharp. Mrs. Whiffen celebrated her eighty-second birthday a few weeks ago, while appearing in the Pinerio comedy. Her first appearance in the role of Mrs. Mossop was in the original production in November, 1898.

FBO, "Flame of the Argentine," which opened at the Columbia Theatre yesterday, getting away from the usual more or less conventional settings, the action is nearly all laid in the great Argentine cattle country, in the heart of a vast rancho, and Miss Brent is a delight to the eye in her picturesque "gaucho" costume.

The story revolves around the efforts of a crooked ranch manager to obtain part of the estate by "discovering" a long-lost daughter of the owner, a widowed Spanish aristocrat.

TALENTED PICTURE
TEAM APPEAR THIS
WEEK AT PLAYHOUSE

Motion picture teams may come and go, but one of Marie Prevost and Monte Blue is the reigning couple of to-day. Those who have seen them in "Lover of Camille," "Recompense," "Kiss Me Again," and several others, will welcome them again in "Other Women's Husbands," the Warner Brothers production at the Playhouse Theatre. Through their popularity, gained while playing together, each was given a separate unit at the Warner Studios, and each made several pictures.

VAUDEVILLE NUMBERS
AND GILDA GRAY ON
SCREEN AT CAPITOL

The vaudeville attractions this week at the Capitol Theatre include three very good acts. The headliner, Miss Nadj Rosetti, the lyric soprano who made such a hit here last week, has been held over for another week, and will be heard in an entirely new programme. Quayle and Kelley, a clever dancing and singing team, will offer something new in the vaudeville offerings. Wait Kelly, a black-faced comedian, is incidentally helping to enliven Capitol patrons considerably this week.

Gilda Gray, a young woman who leaves broken office records (and a few heads, too) behind wherever her name is placed in burning lights, arrived yesterday at the Capitol Theatre in her second Paramount picture, "Cabaret." As a night club entertainer, Gilda plays a new screen role.

Stars Foretold
Success For
"Miss Victoria"

North Vancouver, May 17.—The victory of "Miss Victoria" in the beauty finals here last week for the title of "Miss Canada" was foretold almost uncannily by the mystic old astrologer, who lives in the House of Mystery up at Capilano.

Early last week some of the girls who were in the competition visited the House of Mystery to see what information they could get from the stars as to the outcome of the competition. They went in past the enormous garden snake into the house and Napoleon consulted his records and gave them readings. He did not know who they were.

Then one of them asked about Miss Madeleine Woodman, not mentioning that she was in the beauty contest or identifying her as "Miss Victoria." Napoleon asked for her birthday, which was given as June 28. He then consulted his books and charts. His only reply was "Watch her success from Friday to Sunday."

On Friday she was elected "Miss Canada" by a large vote, and up until midnight Saturday when she started South, she received some of the greatest demonstrations ever accorded a girl in Vancouver.

officer's war-time billets in France and the greatest amusement is obtained by the appearance of the man's wife, whose disguise as a French peasant girl was taken to keep her near her husband. A jealous husband, officers and two Frenchmen cause a riot of comedy throughout the performance.

Church Leaders
Meet in Seattle

Seattle, May 17.—Clergy and laymen from far western states and Canada gathered here to-day for the ninth annual synod of the Province of the Pacific Episcopal churches. To-day's programme was devoted to committee and sectional meetings, while 200 young women carrying candles were to participate in the "service of lights" to-night. The conference is to last six days.

REVISION OF VOTERS'
LISTS IN PROGRESS

Total in Provincial District of
Vancouver Probably Will be
Above 53,000

Vancouver, May 17.—A voters' list of between 53,000 and 55,000 names for the Vancouver electoral district will probably ensue from the sitting of the court of revision, which began yesterday. The old list had 40,000 names, but there have not yet been enough applications to bring the total up to 56,000 that prevailed at the time of the last provincial election, when all those who failed to vote were automatically struck off.

A large number of application forms, estimated to be between 14,000 and 15,000, were approved by the court Monday for addition to the list.

Only thirty-two names were added to the city list by personal application to the court. Most of Monday's sitting was devoted to checking over the many applications for changes of address within the city.

To-day the registrar, John Mahony, is considering the 1,200 to 1,500 objections to names now on the list. More than 1,000 of these objections eman-

Be sure you get the Quaker
package with the red
seal of guarantee

Corn Flakes

Triple-sealed--Wax-wrapped

ate from Conservative headquarters, and pertain to Division 2, the rooming house district, where there is a large floating population. Eight or ten of those who received registered letters notifying them of the proposed objec-

tion appeared Monday to preserve their names on the list under a changed address, but there was no opposition to the other notices of objection. Each one must, however, be inquired into at to-day's sitting of the court.

Brighten
your home
at little
expense

Why not introduce a new
colour note to "off-colour"
rooms this Spring?

And—at the same time put
an end to the most tiresome
of all household duties.

Congoleum Gold Seal Art-
Rugs—in the new brightly
coloured patterns are just
the thing!

There are many gay, colour-
ful patterns in Oriental,
Persian, Floral or Tile effects
to choose from.

Best of all! You'll have no
tiresome beating or sweeping
to contend with—a simple
rub-over with a damp mop
and these long-wearing rugs
are clean and fresh as new—
more leisure and time for
other more pleasing things.

The NEW
beauty you
can put into
EVERY room,

At the present day prices
of Genuine Congoleum Gold
Seal Art-Rugs you can
easily afford to have these
new, fresh rugs in every
room—without straining
even the most limited of
incomes.

And what a difference these
attractive Congoleum pat-
terns will make in the
"atmosphere" of your
rooms! The charming
colour combinations will
bring a new note of cheer
—bright as the pleasant
days of Spring—but longer
lasting.

Just think! A 9 x 6 foot
Genuine Congoleum Gold
Seal Art-Rug—Guaranteed—
is yours for only \$7.50,
\$7.75 in Winnipeg and
points West.

"French Leave" is
Excellent Comedy
At the Coliseum

One of the most successful English
comedies of modern times, "French
Leave," which ran for an entire season
at the Apollo and Globe Theatres in
London, is now drawing capacity
houses here at the Coliseum. Last
night, the opening performance was
greeted by a packed theatre and the
applause was testimony of the popu-
larity of the show.

The scene of the play is laid in an

Your Stomach
Troubling You?

Mrs. W. H. Skyring

Quelph, Ont.—"There is nothing
better as a building tonic and blood
medicine than Dr. Pierce's Golden
Medical Discovery. Several times when
I was run down, suffered from weak
stomach, thin and impoverished blood,
I took the 'Golden Medical Discovery'
and always obtained good results. It
enriched my blood, relieved me of the
weak stomach, built me up in health
and made me feel like a new person.
I also found it a splendid tonic to
take following motherhood to give me
strength. I always recommend Dr.
Pierce's medicine to those whom I
find ailing for I know them to be just
as advertised."—Mrs. W. H. Skyring, 22
Nottingham St.

At all drug stores, or send 10 cents

SECOND AND THIRD BEAUTY RIVALS HERE

To give Victorians a chance to see and compare the two prize beauties who were runners-up in the contest for the "Miss Canada" title, captured by "Miss Victoria," Miss Beth McCosk of Winnipeg, and Miss Peggy Gold of Nanaimo have arrived to fulfill a three days' contract for appearances on the stage of the Dominion Theatre.

From Winnipeg she brought with her the sequin gown which was imported for her at a cost of \$200 and was the most expensive gown in the Canadian beauty contest.

Miss Gold, who is the picked beauty of the northern part of this island, is a seventeen-year-old musician. She has lived all her life in Nanaimo.

The two girls appear here in the prize gowns and then in bathing suits, just as they appeared in the "Miss Canada" contest.

They will go to Nanaimo Thursday morning to appear there until Saturday night. After that their beauty postings will be over until September, when they have contracts for seven weeks' tour.

VICTORIA WOMAN LEFT BIG ESTATE

Late Mrs. C. E. Currie Disposed of \$38,335 in Will Just Probated

Disposing of a net estate of \$38,335, will of the late Mrs. Annie Elizabeth Currie of Victoria, who died on April 13, has been probated in the Supreme Court.

She bequeathed to her husband, Charles Ernest Currie of Victoria, a life interest in the estate and the use of plate and tableware, which she usually will go to a nephew, Charles Hardy Waterfall of Columbia, B.C., who shares the remainder with another nephew, Frank Waterfall of Hatzic, B.C.

722 Yates Street Phone 120

NEWS IN BRIEF

The four Victoria members of the Provincial Legislature will speak this evening at a public meeting to be held in the Conservative rooms, Campbell Building, at 8 o'clock. The addresses will be broadcast.

Further arguments on the application of John R. Green for a review of taxation of costs in the Arbuthnot v. Hill action before the Appeal Court were heard by Mr. Justice Murphy in Supreme Court Chambers, to-day.

The Y's Men's Club will meet this evening at supper at 6:15 o'clock in the Y.M.C.A. Building on Blanchard Street, instead of at luncheon on Wednesday, as previously announced. All members are asked to note the change of date.

The date for the annual meeting of the tourist group of the Chamber of Commerce will probably be set at a meeting of the executive and a special committee to be held under the chairmanship of John Wood, Thursday morning at 11 o'clock.

The Track and Field Club will hold its regular work-out this evening at the Y.M.C.A. at 6:15. An invitation has been extended to policemen of the city to participate, and it is expected that a good number of the local force will attend.

The Equimait Liberal Association will hold a special meeting on Thursday, May 19, at 8:30 p.m. in the Equimait Liberal rooms, for the purpose of electing delegates for the annual meeting of the district Liberal Association. All members are requested to be present.

A most interesting programme of music has been arranged for the annual concert of the High School Girls' Chorus for next Friday evening at 8 o'clock. The programme consists of orchestral and choral numbers with Leighton Winter as soprano soloist.

The semi-monthly luncheon of the Victoria Real Estate Board will be held to-morrow at the Chamber of Commerce and topics for discussion will include increase of membership dues, zoning, standing committees, monthly sales report and plans for the Seattle convention of realtors.

Andrew Johnston Atchison, Shawanigan Lake logger, was granted a divorce from his wife, Florence Atchison, whom he married in New Westminster in 1916, by Mr. Justice Murphy this morning. James Lynne of Hana, Alberta, was named co-respondent. Gordon A. Cameron appeared for the petitioner.

Permission to the Victoria Gas Company Limited to install gas mains and laterals on city streets in the Fairfield district was granted by the city council in session last night.

The company agrees to replace road surfaces as before and to indemnify the city against all damage that may result from the work in progress.

The theft of flowers from Stadacona Park, a puzzle to the city park commissioners for some time past, has now forced the committee to vigorous action. Police supervision of the park, and immediate arrest for any detected in the pilfering will follow, it is stated.

Stadacona Park at this season of the year and later is a mass of bloom, from city nurseries, and the delight of residents and tourists alike, according to Alderman William Marchant, who broached the matter last night.

Sitting as a board of health last night the city council cautioned a milk dealer in the supply of milk sold by that dealer to have his milk found below standards required. On five occasions the milk tested from this source had been unsatisfactory, it was stated.

The vendor promised immediate action to comply with city health requirements. "It is a chance for you," said Mayor J. C. Penney to the vendor, whose suspension of the milk was handed back on that understanding. Generally throughout the city the standard of milk supply is very high, stated Dr. Arthur G. Price to the council.

An excellent concert was held in Emmanuel Baptist Church last evening. The variety and quality of the items on the programme delighted an audience which filled the building. The group and individual artists were warmly applauded and honored.

Rev. Henry Knox acted as chairman. The following took part in the programme: Miss Gwen Harper, piano solo; O. H. E. Green, cornet solo; Miss J. Nixon, Mrs. G. H. E. Green, and Miss L. Parfitt, instrumental trio; C. H. Llewellyn and F. E. Rowley, vocal duets; Miss N. Sowerfoot, recitations; Miss Viola Davis, oration; Victoria Male Chorus; Henry McCleary, conductor; Mrs. I. Adams, Miss Mae Mason, G. H. Guy, F. E. Rowley, songs; Miss W. Sowerfoot, Mrs. G. H. E. Green, and Henry McCleary, accompanists.

The conclusion of the programme, W. P. Marchant and H. T. Zala voiced the appreciation of the audience and tendered a vote of thanks to all who had taken part in the concert. The artists were later entertained in the school-room when the ladies of the church served refreshments.

A. NICHOLSON TRIAL STARTS IN VANCOUVER

(Continued from page 1)

The trial is expected to last two days. Robert Moore's trial on the same charge will be opened after that of Nicholson has concluded.

ADJOURNMENT ASKED

Before either of the accused had been arraigned, Mr. Wismer, on behalf of Nicholson, applied for a separate trial and requested an adjournment on the ground that he had had no time to consult medical witnesses.

"You either go on now, or both go on," commented Mr. Justice McDougall. "I don't see very much whether it is a case for adjournment. I have read the evidence, and you will have to be prepared to go on with the Nicholson case."

FARRIS PREPARED

J. W. de B. Farris, counsel for Moore, said he was ready to go on with Moore's trial.

"You will either go on together, or go on with the Nicholson case," repeated the judge.

Mr. Farris then formally applied for a severance of the trials.

The case for the prosecution was outlined to the jury by Mr. Johnson, after which Robert T. Blair, the first witness, identified a plan of the Canada Hotel.

ATTORNEY-GENERAL DESCRIBES WORK OF LEGISLATURE

Hon. A. M. Manson Gives Kiwanis Club View of Sessional Labors

Hon. A. M. Manson, Attorney-General of British Columbia, addressed the Kiwanis Club at the Chamber of Commerce to-day, speaking on the Legislature and its labors; stating that the working of the Legislature should be of vital interest to the Kiwanians, as an active service club.

Touching upon the work of the session recently past, he pointed out that the forty-eight members represent diverging views, due to personal outlook and to the varied needs of their constituencies, many of these being almost as large as empires of history.

The Legislature deals with a wide variety of subjects, many not being pointed out by the speaker. In the last session thirty-one of these were on the order paper, and gave opportunity to air the needs of all parts of the Province.

Touching upon campaign funds, Mr. Manson said that a great amount of hypocrisy existed. He was not satisfied with conditions, but both politicians and parties shared equally in any guilt there might be in methods of raising funds for party purposes.

WORK LONG HOURS

The great amount of work performed by select committees of the Legislature was explained. These working organizations sit from 9 o'clock until 4 o'clock each morning, and often continue to work until midnight. Committees dealing with public accounts, municipal affairs, agriculture and private bills have arduous tasks, having to thresh out great numbers of legislative proposals sought by divergent interests.

Mr. Manson showed the labors involved in parliamentary questions, the replies requiring hard work by the staff.

In the last session of the Legislature ninety-six bills were presented, and ninety were passed. There is no other Legislature in Canada which puts in the hours of labor which the British Columbia legislators are called upon to perform.

Mr. Manson pointed out the centralization effective in this Province, this being reflected in the hours of duty required of the legislators in British Columbia.

There has been a great simplification in legislation affecting commerce in all parts of Canada, and the result is a great saving of time and money. This caused much labor for the legislators.

LAST MINUTE CALES

Mr. Manson touched on the urgent request of Sanborn for remedial legislation, presented a few days before adjournment, as an instance of emergency labors, thrust on the Legislature without warning, requiring the burning of much midnight oil.

Amendment of the Liquor Act, always a fruitful source of work, had this year resulted in the transfer of responsibility from the Government. Mr. Manson expressed pleasure with this change to control by an independent commission responsible solely to the Legislature.

Touching on prohibition, Mr. Manson remarked that there is such a thing as riding a hobby to death, referring to objections by prohibition leaders to extending the hours of sale of liquor. When the people are ready to terminate the liquor business he would be quick to do so.

A MOMENTOUS BILL

The Produce Marketing Act was described as momentous, a measure which may prove foolish or a great advantage. The farmers had sought the measure, and Mr. Manson admitted that it is a most radical step, based on the old principle of having some regard for one's fellow men. In his opinion it is good business that a few people should, if necessary, pay a little more for their fruit, if this results in enabling the other man to make a living. This result would follow elimination of over-supply in any area.

There was much financial legislation at the time of the House, and Mr. Manson urged all citizens to compare their own income tax payments in recent years with the impost to be met under the new system. He was confident that such a survey by taxpayers would be satisfactory and the associations of politicians would be ignored.

Mr. Manson told of reductions in the charges against all classes of taxpayers and believed that this betterment would advance prosperity. He pointed out that the minimum succession duty rate in British Columbia is the lowest in the world.

The prosperity of British Columbia is, in notable increase in production in all classes of industry. Annual payrolls have increased in ten years by over \$100,000,000.

Mr. Manson should preach the gospel of British Columbia and Canada, ignoring the lure of distant fields where prosperity is not as genuine as it is in this Province.

"There is no reason why, in the next quarter of a century, we shall not be proud of our Province and its progress," he said in closing.

Miss Jones, contraalto, rendered two solos, being accompanied by Mrs. Matthews. Jack Miller, twelve years old, cornettist and gold medalist at the Victoria Musical Festival, rendered two solos, accompanied by Cecil Heaton.

Oak Bay Council Approves Grants

The Oak Bay Council last night appropriated \$400 for the Diamond Jubilee celebration in July. It was decided to appoint representatives of the municipality on the general celebration committee.

A grant of \$25 was made by the council to the Oak Bay Athletic Association.

Vancouver, May 17.—Dr. E. H. Archibald, head of the department of chemistry at the University of British Columbia, has resigned, but will continue as professor of analytical chemistry, it is announced. Ill-health compels his action.

Local Girl Wins University Degree

Miss Jeannette Sargent, who has been studying at Queens University, Kingston, Ontario, has received her Bachelor of Arts degree from that university. She is a daughter of Mr. and Mrs. W. J. Sargent of this city and is a member of the staff of the Victoria Public Library.

MAY 24 FASHION PARADE SUPPORTED

European Buyers and Style Experts on Women's and Men's Wear Interested

Nine Prize Winners to be Selected From Public Attending Empire Day Festivities.

The first organized fashion parade held on the streets of Victoria will be seen during Empire Day festivities, when four experts will mingle with the public to choose the best dressed women, men and little girls, selecting three winners from each class.

The Champs Elysee of Paris, Fifth Avenue, New York, and Bond Street, London, among the most famous fashion centres of the world, present a spectacle that never fails, and one that is of interest to the public.

Opportunity along the same lines will be open to residents and tourists alike in Victoria during the May 24 parade, as the public will be attending the various functions that the experts will select their choice.

"Victoria streets have long been noted for the well-dressed men and women that one sees, though, to date, little advantage has been taken of this fact," was the way one member of the May 24 committee put it to-day.

As a guide to current styles the committee has arranged for style talks by leading Victoria houses in women's and men's wear, and special window displays in which the beautiful but unemotional waxen figures will display the latest modes in feminine attire, and correct styles for men and children.

Nine prizes are to be awarded in the fashion parade, and these will be for sports and summer attire, it is stated. Opinions offered by the buyers to-day, representing long-established clothing houses, include the following notes:

LADIES' SPORTS ATTIRE

The following suggestions are made: "Two-piece suit consisting of a knitted pullover, of silk of silk and wool and a pleated silk skirt; or a three-piece knitted outfit consisting of a knitted pullover, skirt and a long knitted coat; or a two-piece knitted suit with either a cardigan or a pullover coat, but generally a pullover is worn with a smart little vis-crush or a crocheted knit, close-fitting hat; or a tweed suit with a short tailored coat generally with belt and a pleated skirt; or a silk and wool two-piece frock of silversheen Jersey with a smart tweed coat and a little close-fitting felt hat; or a smart two-piece frock of Celanese silk with a snappy little close-fitting hat to frame the face, and a smart knish cent in a sports style to complete the outfit."

CORRECT FOR MEN

The correct dress for men is described as follows: "Cut on lines approved by the best Street Tailors, a two-button young men's single-breasted sack coat, with plain lapels, bluff edges and no vent, to fit close to waist and over hips, trousers eighteen bottom; or a sport jacket, single-breasted, with a button, no top button hole, peak lapel, bluff edges, no vent and regular pockets; to wear with tweed suits, straw hat or soft Felt in harmonizing shades, tan shoes fairly square toes; to wear with blue serge or dark worsteds, black stiff hat and black shoes fairly square toes."

Another buyer suggests for men: "Coat, single, two-button or double-breasted two-button jacket, square shoulders, hip fitting, material plain or fancy; Cheviot, Saxony, tweed, or flannel, vest, single or double-breasted, same material as coat; pants, close fitting at hips, medium width of legs, 19½ at knee at 34 at bottom with no vent; hat, straw, Derby or soft felt; shirt, white or colored; collar, wing, double or turned down, in white or colored; cravat, four-in-hand or bow knot; gloves, tan, white or colored; shoes, black calf showing plain toe, shirt, plain or fancy, Bulton or laced, full brogue or plain, and spats."

Other opinions are to be given as they reach the committee. In the general appeal to the public to-day, the Empire Day committee urge all to wear weather attire as the appearance of public gatherings is much enhanced, it is stated, by the gay colors and show of warm weather attire.

VANCOUVER TO SEND SOME PERFECT MEN

Sandow Medalist to Co-operate in Physical Culture Show

George Jones of Vancouver, who holds a Sandow medal won as first prize in a physical culture contest, has offered to co-operate with W. H. Davies in staging the perfect man contest in Victoria as a part of the May-time celebrations.

The idea of a physical culture contest is warmly praised by Mr. Jones, who generously offers to give it every encouragement in Vancouver. He has several candidates on the mainland who will probably come over to Victoria to compete with the Victoria entries.

Mr. Davies now contemplates staging the contest on a grand scale, than the most perfect physical specimen of manhood in British Columbia and then arrange a series of contests between provinces so that Canada's most perfectly developed man can be crowned King of physical culture during Confederation week. This, he believes, will lead to a world-wide contest to decide which country can claim to possess the finest specimen of manhood.

Local Girl Wins University Degree

Miss Jeannette Sargent, who has been studying at Queens University, Kingston, Ontario, has received her Bachelor of Arts degree from that university. She is a daughter of Mr. and Mrs. W. J. Sargent of this city and is a member of the staff of the Victoria Public Library.

MANY ARTISTS TO SING AT CONCERT

Firemen's Entertainment Will Be Featured by Prominent Victorians

In the new recreation room of the Victoria Fire Department, which will be formally opened on Thursday evening, one of the most pretentious programmes of entertainment the members of the force have ever planned, will be presented to the public. Among the prominent artists assembled will be Miss Eva Hart, whose voice has charmed many audiences; Miss Eva Payne another singer of rare quality; Miss Roberts Balcom, dancer of high repute; Will Marshall, comedian and singer and Jack Robertson, better known on the English stage, but already popular here.

Following the concert numbers, dancing will be the order of the evening, and refreshments will be served. An energetic committee of firemen is working to make the affair a success.

ISLAND ADVENTOR MADE UNIQUE FERRY

Had Air Screw and Three Water Screws, Junior Committee Learns

Salt Spring Island Residents Support New Ferry Project

A unique type of ferry with an air propeller and three water propellers was built at Salt Spring Island to connect with the Saanich Peninsula some years ago, and actually made one round trip, it is reported.

Members of the Junior Chamber of Commerce committee investigating the possibility of ferry service between these two points.

The device was the invention of a resident on the island, who hitched a Cadillac car and his farm tractor to two of the three water propellers and drew on the goodwill of any automobile owning passenger he carried to the island, who was to be paid by the ferry. From the tractor and, here lies the chief interest of the unsuccessful venture, the inventor also operated an air-screw which drove a blast of air under pressure down into the water, propelling the ferry with the object of adding to its propulsion. The ferry, with passengers, made one round trip, covering nine miles in a period of five hours.

Valuable data on the new ferry project was collected by Mr. Palmer on a recent trip to Salt Spring Island.

NEW MEMBERSHIP

At a directors' meeting last night the Junior Chamber received new memberships in the person of Hugh R. Allan and John H. Findlay, and is now on its way to the second hundred.

The Junior Chamber will abandon general meetings during the Summer months, if a plan now before the directors is put into effect. June 2 is the final date, it is stated, unless something unforeseen should develop.

The secretary reported upon his recent visit to Salt Spring Island intimating strongly that the citizens of Salt Spring Island were generally in support of establishing an auto ferry service between that island and the Saanich Peninsula. He stated that following his investigations he is convinced that such a service would be well patronized and would prove to be remunerative to any concern who was enterprising enough to give the project a fair trial. The board agreed that their activities in this connection should be continued.

OBITUARY

The death occurred yesterday at 1545 Elford Street of Miss Alice Henrietta McLimont, late of Vernon, B.C., daughter of the late William and Sarah Eliza McLimont of Quebec. Private funeral services will be held Wednesday afternoon at Christ Church Cathedral, the Dean of Columbia officiating. Interment will be made at Royal Oak Burial Park.

The funeral of Yvonne Alice Worth three-month-old daughter of Mr. and Mrs. Arthur Worth, of 811 Calcedonia Avenue, took place yesterday at 2 o'clock, from the Sands Funeral Chapel. Rev. Arthur deB. Owen officiated. The pallbearers were H. Walton and A. J. Coy. Interment was in Royal Oak Burial Park.

There passed away this morning at the Aspid and Infirmary Women's Home Mrs. Elizabeth Dare, aged sixty-five years. The late Mrs. Dare was a native of England, and had resided here for nineteen years, her late husband and daughter having been in the city for a number of years. The remains are resting at McCall Bros' Funeral Home and announcement of funeral will be made later.

The remains of the late Abraham L. Roberts were forwarded by the B. C. Funeral Company this afternoon to Sutton, Nebraska, where interment will be made.

The death took place at Asinibol, Sask. on May 12, of John Kennedy Fraser, son of the late Mr. Alex. Fraser, Balleferry, Inverness, Scotland, and Mrs. Fraser of Vancouver. His death, at the age of forty years, will be deeply regretted by his friends. Besides his aged mother, he leaves a brother, Andrew Fraser of Kelowna, and sisters, Mrs. Owens, Vancouver, and Mrs. Ball and Mrs. Moscop, Victoria. The funeral will take place in Vancouver on Wednesday.

The funeral of Edward Outhwaite, who died on Thursday morning at the Royal Jubilee Hospital, took place on Monday afternoon from McCall Bros' Funeral Home, and proceeded to St. Luke's Church at Cedar Hill Crossroad, where service was held. Rev. William Carroll, assisted by Rev. M. D. McKee, officiating. Interment was in the churchyard, with the following as pallbearers: J. G. MacFarlane, A. G. Fairburn, E. W. Meadows, R. C. MacKay, K. Ferguson and H. Maddaford.

Richard William Reed, aged fifty-nine, passed away at an early hour this morning at the family residence, 2350 Bowker Avenue. Mr. Reed was a native of Quebec and had been a resident of this city for nine years. He is survived by his widow and two nephews. The remains are resting at the family residence, 2350 Bowker Avenue, from where the funeral will take place on Thursday afternoon. The

BASEBALL, BOXING

Ladysmith May Come Here Saturday For Game With Thistles

First Round of Connaught Cup Series to Get Underway Immediately

Local Leagues Just About Finished For Season; Prepare For Scots' Visit

Football is just about on its last legs in Victoria and it will not be long before all the leagues are wound up and the way left for the single attraction in June, when the Scottish Eleven will play in this city. In the West football is being stretched all the way round the year, due to the fact that the Connaught Cup series, which determines the Canadian championship, is not finished until well on in July.

The junior and juvenile leagues in Victoria have wound up their schedules and the players have taken to summer sports.

Victoria City, which played in the Pacific Coast Football League, have disbanded following the decision of the B.C.F.A. which took five players from them. They did not send a team to Ladysmith last week-end and will play no more this season.

The First Division has a few games left, but none of them will have any bearing on the decision of the championship. Esquimalt have won the honors. The dockers have done even better than they did last year. They beat the Victoria City, Second Division championship of the P.C.F.L. and Milton Cup, and now have added the First Division title to their credit.

It is just possible that there will be one game here on Saturday. Ladysmith and Saanich Thistles are expected to play in the first round of the Connaught Cup play-offs and if the Royal Athletic Club can be secured the miners will be here for a game.

The Thistles are the only local representatives in the series this year. They have picked a tough spot in the draw for their opening game as Ladysmith are on a bye. With Nanaimo's far-famed eleven. However, the youngsters are out for experience, and if they can make any of their field, they will provide plenty of hard football for their opponents.

The visit of Ladysmith will be the last by a Provincial team this season.

As soon as the Lower Island Football Association can get the decks cleared of local football they will be able to set the draw to the task of preparing the team which will play the Scottish eleven next month. Following the spirited display given by the local team against the Canadian eleven, now on the way to New Zealand, the respect of local fans for home talent became more sincere. It is felt that Victoria can get together a very fine team which will make an interesting game with the Scottish.

The team will be well trained and drilled for the game.

Vancouver, May 17.—The draw for the Connaught Cup series, leading to the Dominion soccer championship, was made at Monday night's meeting of the British Columbia Football Association.

Seventeen teams will go after the title. Nanaimo City, rated one of the best bets to win out, drew the bye ticket. Dates of games will be announced later.

The draw follows: Saanich Thistles vs. Ladysmith. Nanaimo City, a bye. Cramos vs. Shillies.

Kitsilano vs. North Vancouver ex-High. South Hill vs. North Shore United. Kerrisdale vs. Westminster Royals. Figenes vs. St. Pauls.

Vancouver, May 17.—St. Pauls and Westminster Royals, mainland football finalists in the battle for the McDonald Cup, emblematic of the Coast League title, have been carried to meet next week at Athletic Park, probably May 26. The winner meets the Island champions.

At the meeting of the league officials Austin Delaney of Westminster Royals was set down for ten days for fighting in the recent games with St. Andrews.

SOCCER WIZARD

PATRICK GALLAGHER

"Patsy" as Gallagher is affectionally known, will visit Victoria next month with the Scottish football team. He is an inside right. He is five feet seven in height and weighs 144 pounds. For his size and physique he is perhaps the most wonderful player alive. He was fourteen seasons with Celtic for whom he scored goals that are among the historical landmarks of the game. No one who saw the Scottish Cup final of 1925 can ever forget the almost superhuman effort which brought the goal to beat Dundee and thrilled the crowd. Gallagher is a football genius who can do anything with inflated leather. His ability to perceive the weak points in his opponents' defense and to play upon it is positively uncanny. It was this "sixth sense" which contributed chiefly to Falkirk's remarkable Scottish Cup victories this season. He has played for Ireland against Scotland and England.

PRACTICAL GOLF

By George Gadd

No. 8—THE REAL CAUSE OF TOPPING

Head still ensuring eye ball

Head moved

There is no worse fault in golf than topping, and, unhappily, it seems most golfers at some time during their careers. It has, too, a most demoralizing effect. As long as a player can hit the ball into the air, he feels that there is some hope, but as soon as he begins to top he is despondent.

Half the pleasure in golf is in getting the ball well away from the tee. Top your drive, and interest in that particular hole at once vanishes.

What is the real cause of topping? In nine instances out of ten a topped shot is produced by not keeping the head still. I am bold enough to say that if the head be kept still, it is almost impossible to strike the ball on top, given, of course, a reasonable lie. Let the head move, even a little, and topping becomes very easy.

The old adage, "Keep your eye on the ball" is, in itself, the biggest fallacy in connection with the game. If you concentrate on keeping the head still, the eye must automatically remain on the ball. Unfortunately, the player concentrates on keeping his eye on the ball. It does not necessarily mean that his head is not moved out of the correct position.

It is all too easy to keep the eye on the ball and away back as the club goes up. The result is that the "fixed centre" of the swing is disturbed.

Why is the head so important? It is important because it is, and should be, the fixed centre around which everything revolves. Let this fixed centre stray, maybe only very slightly, and everything moves with it, and the result is a hopeless miss.

One often hears the remark "I fell away from the ball," or "I pulled my arms in," as the explanation of a topped shot. It is both instances of the player's error of effects and not causes. The cause of drawing the arms in and falling away from the ball is simply the shifting of the head.

So I have only one direct remedy to offer for the topped shot, and this is to concentrate on keeping the head still instead of thinking solely of keeping the eye on the ball.

There are other causes of topping, such as shutting the face of the club, incorrect style of addressing the ball, and playing with a too straight faced club, but I will explain these later.

INTERNATIONAL LEAGUE

Buffalo 13, Syracuse 4.

Toronto 8, Rochester 9 (second game, eleven innings, first game postponed).

The team will report to the team captain at Healy's 2 p.m. Saturday.

Champions of Last Two Years To Meet In Crucial Series

St. Louis Cards and Pittsburgh Pirates Fighting For Runner-up Place

Giants and Yankees Still Out in Front With no One Bothering Them

New York, May 17.—The duel of champions—between the winners of the world's crown in 1923 and 1926—was on to-day in the National League between the St. Louis Cardinals, again in second place, and the Pittsburgh Pirates back in third. The Giants still lead the parade as New York retained its hold on first place in both leagues.

The Cardinals yesterday renewed their bid to repeat the title triumph of last year by beating the Phillies 3 to 1, while the Pirates were losing to the Brooklyn Robins 9 to 5. One was a pitchers' battle, the other a slugfests match. Jesse Haines' pitching swung the scales to the side of the Cardinals, holding the opposition seven hits.

The Pirates met the defeat that cost them second place in a game of an entirely different type. They slammed Jesse Petty for thirteen hits and the Robins countered with eleven of their own, most of which were off Dye in the first innings. Six crossed the plate for the home team in those frames.

BROOKLYN LOOKING UP

The Pirates dropped back in the ranking column, the lowly Robins went up at their expense, taking sixth place above the Cincinnati Reds and Boston Braves. After a bad beginning, Brooklyn seemed well on their way to a place among the contenders.

In the American League all three of the leaders won and widened the gap between themselves and the rest.

New York stayed out well ahead of the field by beating Detroit 8 to 2.

Bob Meusel had a field-day, stealing three bases, including home. Gehrig connected for a home-run. The clash of the Boston Red Sox and the Chicago White Sox was featured by the pitching of Ted Lyons, who thereby won his fifth victory of the season for Chicago, 5 to 2.

Four homers helped the Philadelphia Athletics to beat the St. Louis Browns 10 to 8. Half of that number went down to the credit of the slugging young outfielder, Simmons, while Cobb and Cochrane made the other two.

Rifle Shooting

The annual rifle shoot for the 50th Gordon Highlanders Challenge Cup will take place on Saturday afternoon at Healy's Rifle Range, commencing at 1 o'clock. Major R. G. Monteith will be the range officer. The shooting is being held under the auspices of the Rifle Association, and the public is invited to witness the event.

Teams from the Garrison Rifle Association, 16th Canadian Scottish Regiment, C.O.A., 12th Cadet Battalion, Royal Canadian Navy, University School and other organizations will participate in this shoot.

Entries for the competition can be made up to the time of the commencement of the shooting at the range at Healy's.

The Garrison have captured the Gordon Cup for the last two years. They made the highest score last year that had ever been registered in the contest, shooting over the 200, 500 and 800 ranges, and compiling the fine total of 1,105 points, an average for the eight men of 138 per man.

Dr. G. L. Milne presented a cup last year for the marksmen making the highest aggregate over the three ranges. This trophy was won by C.S.M. "Bully" Woods, of the Garrison Rifle Association, who has been named on the Canadian Biuletin team this year. Woods' total was 144, out of a possible 150.

The Gordon Cup competition has been on since 1922, and the winners, with their score, have been as follows: 1922—5th Regiment, C.O.A., 1,042.

1923—16th Canadian Scottish, 1,008.

1924—16th Canadian Scottish, 888.

1925—Garrison Rifle Association, 1,089.

1926—Garrison Rifle Association, 1,105.

The Fifth Brigade rifle team for the Gordon Cup competition on Saturday at Healy's will be chosen from the following: Major Lettice, Richardson, Wilkinson, Simmonds, Sid Browne, Alex McLean, S. Watson, Neil Perry, Badger, Nesbitt, C. D'Arcy, Mosedale.

The team will report to the team captain at Healy's 2 p.m. Saturday.

Jersey City-Reading, rain.

THE FLIGHT THAT FAILED

Edvin Wide, Swedish mércure, flying with perfect stride about the Harvard Stadium cinder path at Cambridge, Mass., in his unavailing attempt to smash the world's record for the two-mile run. Adverse winds blowing across the track slowed him down to 9 minutes, 25 3-5 seconds, 24 seconds behind the mark.

Just Try To Roll the Ball Up To the Cup, Says Bobby Jones

The first article of a series by Bobby Jones, the greatest golfer of all time, will appear in The Times to-morrow and he will give some advice on the art of putting. "Just try to roll the ball up to the cup," says Bobby.

Articles from the pen of Jones will appear regularly in The Times and will be found of great value to all golfers no matter how small or large their handicap may be. Jones's articles are well written and contain observations and tips of great importance.

Vancouver Aroused Over Prospects of World Title Bout

Morgan Reaches Vancouver For His Scrap With Foley; Big Crowd Will Attend

Vancouver, May 17.—Accompanied by Frankie Rogers, trainer, and Bud Thomas, Portland featherweight, who will act as his sparring partner, Tod Morgan, world's junior lightweight champion, who will risk his crown in a battle with Vic Foley, Vancouver's candidate for the title, reached the city from Seattle this morning.

The champion worked out at the Cavalry Club this afternoon, Foley going through his sparring partner, earlier. Morgan had planned to tie himself to Harrison Hot Springs to do some intensive training, but has altered his plans and will appear before local ringworms every day until the fight, May 28. This will be the first fight for a world's title in Vancouver.

With Morgan's arrival assurance of interest in the forthcoming battle has increased. Morgan is reported in first-class condition, despite the fact that he has not had a fight in many weeks.

King's Plate Will Be Feature Race At Toronto On Saturday

Horse Racing in Ontario Opens With Classic Which Has Been Run For 68 Years

Toronto, May 17.—The King's Plate, oldest race on the continent, will be a feature of the programme on Saturday at the opening of the Ontario Jockey Club Spring meeting here and the usual interest in the annual classic is being manifested.

The "Plate" carries with it fifty guineas, the gift of His Majesty, King George, and \$15,000 added by the Ontario Jockey Club. For sixty-eight years each Spring has brought the race for three-year-olds and upward, the property of a British subject resident in Ontario, foaled, raised and trained in either on the flat or cross country, have never left Canada and have never been for a period of more than one month out of the province.

While there are forty entries, it is probable that at post time the field would be narrowed down to eighteen or twenty.

The draw is as follows: Victoria Brass and Iron Works vs. Garrison, at Work Point; umpire, E. Hillcrest vs. Andrews, at Beacon Hill; umpire, Cyril Turner.

Bryan's Bluebirds vs. Y.M.C.A., at Central Park; umpire, Bob Whyte.

New Players Will Make Appearances On Amateur Ball Clubs

Sons Secure Bacon, Formerly With Liberals; Chambers With Eagles

Travelers May Bring Johnny Cummins From Courtenay; Saturday Afternoon Games

In order to give the fans a chance to see a couple of nine innings games, which it is not possible to play in the evening, the executive of the Victoria Senior Amateur Baseball League, at their meeting held last night in the Y.M.C.A., decided to play the two recently-postponed games on Saturday afternoon.

Providing the grounds can be obtained from the city the United Commercial Travelers and the Sons of Canada will meet at the Royal Athletic Park on Saturday afternoon at 3 o'clock. This game should have been played on May 12 but was called off on account of rain.

FIRST MEETING

These teams have not met so far this season, so the game should be a good drawing card. The Natives have plenty of supporters who believe their favorites will be able to give the samplen a good run for their money.

Last night's game between the Eagles and Sons of Canada was called at the end of the first inning on account of a visit by Jupiter Pluvius. This game will most likely be played a week Saturday.

Up till the present the league has run into a streak of bad weather. However, when Old Sol decides to break through the clouds with some good hot sunshine the teams will get down to serious battling for the city championship.

NEW FACES

Another new player will soon be seen in the ranks of the Sons, Bacon, formerly with the Young Liberals of Vancouver, and one of the best catchers on the Mainland, is being transferred from his Government position in the Terminal city to Victoria, and he has decided to throw in his lot with the Natives. This will bolster up Cy Milne's club considerably.

The Eagles have also been out after new material and they have now signed up Percy Chambers, well-known local chucker. He played with the Sons last year and for several years was with the C.F.R. When in shape Chambers is a good pitcher.

CUMMINGS COMING

Rumors are now circulating to the effect that the Travelers will bring Johnny Cummins down from Courtenay. John has been up-land for several years, and is a great ball player. Should the samplen succeed in getting him he will be a tower of strength to their infield. Johnny is a natural-born ball player and is one of the best ever produced in this city.

Baseball fans will be well looked after on May 24, as the senior league will bring over the crack team from the Washington Pulp and Paper Corporation at Port Angeles.

One game will be played in the morning at 10 o'clock and the second at 2:30 o'clock.

The local teams to oppose the visitors will be selected by the Board of Governors, along with President M. G. Hunter and Vice-president D. C. Macfarlane. These teams will be announced following the game to be played to-morrow night between the Travelers and the Eagles.

Larry Hay, manager of the Port Angeles club, has sent word that he is bringing a stronger team than last year.

Longshots Race Home On Different Tracks And Provide Thrills

Royal Spring at Akron Pays \$62.80 For Every Two Dollars Laid on Him

New York, May 17.—All of four race tracks in different parts of the country had their upsets yesterday as extreme outsiders romped home ahead to the dismay of the majority and the delight of the few who had backed them.

The longest shot of all was Royal Spring, Gibson up, which paid \$62.80 on a \$2 pari-mutuel ticket, by outstripping the field in the second race at Akron, a claiming affair. Bedford Saint, at 30 to 1, cleaned up the sixth race at Jamaica, while other unexpected winners were Greek Indian, \$80.50 to \$2 in the fifth at Churchill Downs, and San Sabre, \$21.80 to \$2 in the third at Aurora.

Jamaica's featured race, the Greenfield Claiming Stakes at five furlongs, \$2,000 added, found the veteran Lavender Major on Dr. Wilson in a stirring duel with McAtee, winner of the Kentucky Derby Saturday, this time riding the Greenreese Stables' Ephesian.

DERBY WINNER LOST

The jockey who won the derby was given a cheer from the stands and doffed his cap as they went to the post. In the last sixteenth Dr. Wilson drove ahead of Ephesian to win by a length and a half. Aster was third while Or Adele, the favorite, placed a poor fourth in another upset of the pre-race odds.

With the Jamaica meeting nearing its end, racing fans here were anticipating the opening of the season Thursday at Belmont Park where some of the greatest horses in the land—including Whiskery, Bostonian and Scapa—were expected to match strides.

SOFTBALL

Softball teams in the "A" section of the Victoria and District Softball League will be seen in action to-night and three keenly contested matches are anticipated. The race in this section is very close and the teams are all anxious to win to-night.

The draw is as follows: Victoria Brass and Iron Works vs. Garrison, at Work Point; umpire, E. Hillcrest vs. Andrews, at Beacon Hill; umpire, Cyril Turner.

Bryan's Bluebirds vs. Y.M.C.A., at Central Park; umpire, Bob Whyte.

ATTRACTIVE SCOT

ANDREW CUNNINGHAM

Another of the brilliant Scottish footballers who will be here next month, "Andy" plays for the Rangers and with his tall form and yellow locks he will be the first of the Scots to arrest attention. Cunningham is one of the greatest football players of all time. For international matches he has been a certain choice for a number of years. He can play with assured success in any position, but inside right is his favorite one for there he can get full scope for his deadly left-foot shots which are the terror of all goalkeepers. Born in Galston, Ayrshire, he joined the Rangers in 1915 and has played in about twenty international matches. He has assisted Rangers to win six league championships, while he also possesses six Glasgow Cup medals. He is just under six feet and weighs 174 pounds.

LOW BALL

The hard-hitting first baseman of the St. Louis Browns is off to one of his greatest seasons in years, now that he has been relieved of his former managerial duties and is apparently cured of the sinus trouble that benched him for a season a few years back. George is valuable because of his hitting ability. In the training season he was connecting with all offerings and at top form.

But where we most like to see him operate is around first base, the job that Cap Anson contributed so much to the science of playing. In season he is a wizard, "ach him on the hurried wild throws from across the diamond that get by some of the big leaguers and you'll see why they

Last American Women Eliminated In Golf Tourney In Britain

Miss Wilson of Chicago Beaten By Welsh Star; French Players Still in Running

Miss Leitch's Umbrella Attracted Lightning; Players Unnerved by Weather

Newcastle, County Down, Ireland, May 17.—The last United States player remaining in the British women's open golf championship was eliminated to-day when Mrs. Weston of Aberdovey, Wales, defeated Miss Virginia Wilson of Chicago, in the third round by one hole.

Miss Wilson, who is a French star, advanced another step by beating Miss End Wilson, English school girl golfer, defeated Miss Corlett 4 and 2.

LAILA

A Tale of the Days of Christ, by John Newport
(Copyright, 1926, by Eugene MacLean)

He had almost reached the circle when he stopped. In a moment another figure appeared in the darkness. The man took a quick step forward, his hands touching the weapons at his belts. Then came a woman's voice. "Peace be unto you." "And unto you be peace," the shepherd said, after an instant's pause. "Approach, woman, and tell us who you are." She came forward, and as she walked, Omar moved backward, not taking his eyes from her. She was scarce ten feet from Antonius, when he cried out: "Laila!" A sigh of relief came from the villagers. "Woman," said Jared, sternly, "what are you doing here?" She stopped, her hands before her. "I have come a long way, through many perils, to bring a message to you," she said. "Antonius' ear caught something strangely sweet in her utterance. 'You are in a friendly mood, Laila,' he said, smiling. 'She turned her large, dark eyes upon him seriously. 'I am not the same who fled from the inn, in Jerusalem,' she said. 'In token, I have brought back what I took from you.' She tossed a purse to him, and it fell with a pleasant jingle. He snatched it, and opened it. 'My money!' he cried, with delight. 'The money I took from you,' she said. 'Return it, soldier, where it rightfully belongs, for neither is it yours.' Jared spoke again. 'Give your message,' he said abruptly. 'And when you have given it, withdraw from us.' Her hand slowly lifted. 'I have come to warn you,' she said, her tone full and clear, 'that this being here leads you to destruction.' She indicated Omar. They glanced at him, and saw that he was shrinking back, stepping slowly as if to circle the woman, and escape. "CHAPTER XLVIII Omar, whose carriage always had been erect and majestic, seemed to droop, and his head hung low. In a moment, though, he breathed deeply and squared his shoulders. 'Drive this woman out,' he said, motioning toward the door. She is not of your kin, nor of your faith, and she is an outcast." His voice regathered its full volume as he continued. "How did she find her way along the secret path? Is she not a spy—an agent, perhaps, of the Tetrarch? Has she not cause to hate you?" Laila walked toward him until they stood face to face. "You call yourself Omar," she said, her voice vibrating through the cave, "yet you are not Omar. There was a time when I could not meet your eye, when I fulfilled your commands. That day is done. Back! Back!" She pointed toward the wall, and Omar, step by step, retreated, until his shoulders rested against the rocky side of the cavern. Laila turned

"Can anything have happened to the Lady Mouse Teacher? Is Johnnie running for Dr. Possum? No, he said he was going to a ball game." Just then Uncle Wiggily heard a cute little squeaking laugh and, looking up, he saw the Mouse Teacher looking down at him from an upper window. She saw his puzzled face. "Nothing very much has happened," Uncle Wiggily squeaked. Miss Mouse, "except that I let all the children go home early as a treat. But I had to keep Johnnie Bushytail in for being a bit mischievous." "What did Johnnie do?" asked the bunny. "I could see that he had been up to some tricks."

"He made a lot of snow and threw it all over Susie Littletail," was the answer. "Johnnie made snow—now—in the middle of May!" exclaimed the rabbit. "Impossible! Unless he found some in the hidden pile I discovered about two weeks ago." "No, Johnnie made his own snow," said Miss Mouse. "Come up and I'll show you!" And when Mr. Longears was up in the schoolroom the Mouse Teacher pointed to a pile of finely-torn scraps of white paper on her desk. At first it looked like a heap of snow, cold and shivery. "What happened?" asked Mr. Longears. "It was while we were having recitations," explained Miss Mouse. Johnnie took a lot of blank, white pages out of his lesson book and tore them into fine scraps like flakes of snow. Then, while Jackie Bow Wow was reciting a piece about skating on the ice, all of a sudden Johnnie tossed a double pawful of the torn up paper all over Susie who sat in front of him. It looked so much like a little snow storm that Susie began to shiver. But she soon laughed and so did all the other children. So I had to make Johnnie stay in after school and pick up all of his funny paper snow. Here it is."

"Yes," said Uncle Wiggily looking at the pile on the desk of Miss Mouse. "It does look like snow! Of course Johnnie shouldn't have done it, but I guess— Just then the rat gentleman janitor who had taken the school flag down came creeping into the room. "Excuse me Uncle Wiggily," whispered the janitor. "But the wolf is down in the yard and in a minute he'll be coming up here to bite you!" Mr. Longears looked out of the window and saw the Wolf down in the yard. The Lady Mouse screamed softly as she saw the bad chap. "I'll play a trick on him!" whispered the rabbit. He took the funny

paper snow Johnnie had made and dropped it in sifting flakes down on the Wolf's head. And no wonder did the hungry animal see the white flakes drifting down than he, too, thought they were real snow. "Wow!" he howled. "There's a big storm coming! I'd better run home before I freeze! I'll get that rabbit another time!" So away he ran, not knowing the snow was nothing but bits of paper. So Mr. Longears was saved and he and Miss Mouse had a good laugh. And if the carpet sweeper doesn't roll over the foot of the stairs and make them turn upside down, I'll tell you next about Uncle Wiggily and Bully's boat.

"Wow!" he howled. "There's a big storm coming! I'd better run home before I freeze! I'll get that rabbit another time!" So away he ran, not knowing the snow was nothing but bits of paper. So Mr. Longears was saved and he and Miss Mouse had a good laugh. And if the carpet sweeper doesn't roll over the foot of the stairs and make them turn upside down, I'll tell you next about Uncle Wiggily and Bully's boat.

FINANCIAL STOCKS — GRAIN — BONDS — MARKETS

Wall Street
TO-DAYLast Minute News on Stocks
and Financial Affairs

New York, May 17 (By R. P. Clark & Company Limited).—Constructive influences were material in causing a show of strength in to-day's market. The rail department reflected shifting operations into this section. Western Maryland was the feature rail on buying attributed to New York Central interests. Houston Oil was the strong spot in the petroleum group, which was otherwise irregular. An active demand was in progress for Baldwin and other equipments. Motors reflected activity by some of those who were active on the selling side yesterday. The feature development was the falling-off in brokers' loans, as reported yesterday. This undoubtedly reflected the early covering in the market. The money rate was easier after a renewal of 4 1/2 per cent, and this accounted for the market strength in late afternoon. The market presents a good degree of appearance and reflects in a good degree the division of opinion that exists in local circles.

New York, May 17 (By B. C. Bond Corporation's direct Wall Street wire).—The Wall Street Journal's stock market edition this afternoon says: Favorable comment was made by the market's prompt recovery from Monday's selling movement.

In view of the substantial nature of the recent gains in the main body of stocks, bearish professionals said this setback was the start of a reaction and made their commitments accordingly. Demand from the shorts started a rally, which steadily gained momentum as the session progressed. Volatile industrials like Baldwin and General Motors rebounded vigorously with resumption of constructive movement in Steel Common, American Smelting and other seasonal dividend issues. Rails also displayed a greatly improved tone under the leadership of Reading and B. & O. Short positions built up yesterday's expectation of a substantial increase in brokerage loans, in the statement given out after the close, were hurriedly forced to run to cover.

The covering operations imparted a strong tone to the general list of good sized recoveries from Monday's low took place in the speculative leaders. Although banks said \$10,000,000 loans in the late morning, ample funds were reported available at the renewal figure of 4 1/2 per cent, and the general list maintained a confident tone.

CORDASCO WANTS
TIME TO FIX UP

Montreal, May 17.—Examination of the affairs of C. M. Cordasco & Company of Montreal, foreign bond dealers, is being conducted by Turcotte & Merrill, according to a letter sent out to creditors of the bond house by the latter company. The letter says in part: "The indebtedness to many hundreds of creditors is very large and the liquid assets are insignificant. Mr. Charles Cordasco is prepared to make a voluntary abandonment of his property, but if he does so we doubt whether anything can be realized for the creditors. "Mr. Cordasco has great confidence in the business he created and he believes that if he could obtain an extension of time of six months he could improve his position considerably." The extension is being granted.

MAGIC BAKING POWDER

Most Canadian Housewives use **MAGIC BAKING POWDER** to assure **SUCCESSFUL BAKING**

Made in Canada No Alum

E. W. GILLET CO. LTD. TORONTO - CAN.

VISITS VANCOUVER

Vancouver, May 17.—Rt. Hon. H. G. Burgess, general manager of the London, Midlands & Scottish Railway, is a visitor in Vancouver in the course of a vacation tour of the United States and Canada with members of his family. He arrived yesterday afternoon in a private car on the Great Northern Railway.

Gained 10 Pounds in 22 Days

That's going some—but skinny men, women and children just can't help putting on good healthy flesh when they take McCoy's Cod Liver Extract Tablets.

Check full of vitamins—the kind that are extracted from the livers of the cod—the kind that are a real help to frail, rundown, anemic, skinny men and women.

Try these sugar coated tasteless tablets for thirty days—if they don't help greatly get your money back.

One woman gained ten pounds in twenty-two days. Sixty tablets, sixty cents. Ask MacFarlane Drug Co., Vancouver Drug Co., Owl Drug Co., or any druggist for McCoy's Cod Liver Extract Tablets. Directions and formula on each box.

"Get McCoy's the original and genuine."

ALL COUNTRIES BORDERING PACIFIC INVITED TO DEBATE TRADE PROBLEMS IN VICTORIA

Victoria Chamber of Commerce Sends Invitations to Send Delegates to Pacific Foreign Trade Convention to Be Held Here in September; Convention Will Be Striking International Affair, Marking First Time Council Has Convened on British Soil

For the first time in history, 1,500 United States manufacturers will meet to discuss commercial affairs on British soil when the Pacific Coast Foreign Trade Council of the United States convenes in Victoria in September. It is pointed out in letters of invitation which have been sent out by the Victoria Chamber of Commerce. First acceptance to the invitation have been received this week.

O. K. Davis, secretary of the National Foreign Trade Council of the United States, writes to say that he will be present unless unforeseen developments. He also recalls previous visits to Victoria and says he will bring along his golf clubs, fishing rods and guns.

The Townsville Chamber of Commerce writes from Australia expressing appreciation of the invitation and saying it expects to be represented. Invitations have gone forward to Members of the Cabinets of all British overseas dominions, including Australia, New Zealand, South Africa and India and foreign nations bordering the Pacific. The United States delegates will be sent from the Seattle office of the Foreign Trade Council.

The reason United States manufacturers accepted the invitation to discuss their commercial affairs on British soil, says C. P. W. Schwenger, president of the Victoria Chamber of Commerce, was to indicate to the world at large the unity of interest between the United States and the British nations bordering on both sides of the Pacific ocean—to show their breadth of view and to establish a distinct mark of friendship to the world at large to English-speaking peoples.

"It is our intention," he continues, "to make the convention a striking international affair and we have already taken measures to secure a member of the British Cabinet, the big industrial leaders of Eastern United States, the leaders of politics and thought in Canada, representative trade missions and Members of the Cabinets of all British Overseas Dominions, including Australia, New Zealand, South Africa and India."

Second Relief Mine To be Reopened Now

Nelson, May 17.—The Second Relief mine, Eric Canyon, West Kootenay, has been bonded to R. O. O'Connell and W. L. O'Connell, who are now in Nelson arranging for supplies and machinery.

The Second Relief suffered in 1919 from forest fires, losing a \$75,000 mill from forest fires, losing a \$75,000 mill from forest fires, losing a \$75,000 mill from forest fires.

Since that time the property has not been operated, although in 1916 2,600 tons of ore was shipped. Since then much development has been done, with the result that much ore has been blocked out. The ore is gold and copper, running to good values.

The O'Connell brothers intend to equip the property at once with up-to-date machinery. A milling plant will follow.

The Second Relief has been always looked upon as one of the meritable producers of this section.

Steel Whaling Tug is Raised in Record Time

San Francisco, May 17.—The steel whaling tug Port Saunders, one of the "killing boats" of the California Sea Products Company, sunk in fifty feet of water two weeks ago following a collision with a lighthouse tender, was raised yesterday and dragged on the mud flats on the lower end of the bay. The salvage of the tug was undertaken by the Crowley Launch & Tugboat Company last Friday, and the completion of the task is regarded by shipping men as one of the quickest pieces of work of its kind on record here. When the vessel was brought to the surface, a six-foot hole was discovered in its side.

The Dollar Steamship Company announced yesterday that negotiations are under way to sell the freighter, Harold Dollar, to T. L. Duff Limited, of London. The vessel is one of the Dollar vessels flying the British flag and is under charter to J. J. Moore & Company operating between the Pacific Coast and the Antipodes. The Harold Dollar, built in 1910 at Dunbarton, Scotland, has a capacity of 2,822 net tons.

Myrtlebank Here To-day For Lumber

The freighter Myrtlebank of the Bank Line was due to arrive here this afternoon from New Westminster to land 1,500,000 feet of lumber at Ritheta Piers, King Bros. local customers were advised.

Another freighter, the Brookdale, which will arrive here either tomorrow evening or Thursday morning, also will take on considerable lumber here. In addition to the motor vessel Astoria, which is due here Sunday, other vessels booked for lumber here this month are the Chelsea, which is at present on the mainland, and the Florida Maru, which will arrive near the end of the month.

PLAN TO SUE U.S. FOR OVER \$50,000

Owners of Federalship to Take Action, Attorney at San Francisco Declares

San Francisco, May 17.—The Consolidated Exporters Limited, owners of the Federalship, seized at sea by the United States Coast Guard and released last month after a Federal Court decision, plans to demand of the United States Government reparation totaling \$50,000 and \$100,000, Attorney Harold Faulkner, representing the owners, declared yesterday.

Faulkner said that the crew members of the Federalship also planned to file claims for personal damages because they were held in jail from the time the ship was seized until the United States court declared the seizure illegal. Only about forty cases of liquor were found missing from the holds of the ship when a check was made of the \$1,000,000 cargo, following her release, Faulkner said, adding that the crew intended to "social shrinkage."

Faulkner said that terms of the treaty between the United States and Panama, under whose registry the Federalship sailed, prescribed that adjustments be made by a commission of three—a representative of Panama, one of the United States, and the third a disinterested party. The action agreed on is being taken by the United States Government for execution.

The recent docking of the two C.P.R. vessels, Prince of Wales and the S.S. Grootendyk, in the Songhees Drydock, was carried out in such a satisfactory manner both to the owners and contractors employed—in the dock, that it is now assumed that any drydocking operations to be done at this port can be carried out perfectly at that dock and the necessity for keeping the other dock open is not present, Mr. Forde stated. The improved facilities of the Songhees dock and their advantages over those obtainable in the old dock are marked. He has 125 tons of cargo for this port from London and Rotterdam.

DRYDOCK TO BE CLOSED MAY 31

New Songhees Drydock Replaces Old Dock at Esquimalt For Port Work June 1

Operating Since 1886, Old Dock Will Now be Closed Indefinitely

The Old Esquimalt Drydock, which has been in continuous operation since 1886 will be closed to vessels after May 31, according to an announcement made this morning by J. P. Forde, district engineer here for the Federal Department of Public Works.

As the new Songhees drydock will be ready for the reception of all vessels on June 1, and all vessels requiring docking at this port can be accommodated there, the Department of Public Works has decided that the old drydock will be officially closed at the end of this month, after which date no vessels will be accepted for docking there, Mr. Forde stated, in making the announcement.

The old dock will remain closed until such time as shipping requirements on the coast necessitate its reopening, Mr. Forde declared.

The recent docking of the two C.P.R. vessels, Prince of Wales and the S.S. Grootendyk, in the Songhees Drydock, was carried out in such a satisfactory manner both to the owners and contractors employed—in the dock, that it is now assumed that any drydocking operations to be done at this port can be carried out perfectly at that dock and the necessity for keeping the other dock open is not present, Mr. Forde stated. The improved facilities of the Songhees dock and their advantages over those obtainable in the old dock are marked. He has 125 tons of cargo for this port from London and Rotterdam.

TWO VESSELS DUE HERE ON MONDAY

President Jefferson and Shidzoka to Arrive Day Before Holiday

With 300 tons of cargo for discharge at this port, the American Mail Line vessel President Jefferson, operating in the joint Dollar-American Mail service to the Orient will arrive here Monday morning, according to 20 advices received by W. M. Allan, local agent.

In addition to cargo, the Jefferson has ten cabin and fifty steerage passengers for this port and ninety bags of mail. She has a large passenger list and heavy cargo for Seattle.

The Shidzoka Maru of the Nippon Yusen Kaisha is due here the same day from Japan and China. The Shidzoka, under the command of H. Tsuruhashi, has 118 tons for discharge here and fifty-nine optional for discharge at Seattle or Port Moody. Included in cargo for discharge here is a small silk shipment.

Her list totals eight-eight, including seven first and thirty-eight class passengers for Victoria and Seattle. Can be included in cargo for discharge here is a small silk shipment.

HEAVY LOADINGS ON COAST TO GULF PORTS PREDICTED

Seattle, May 17.—Heavy loadings from the Pacific Coast to Gulf ports are forecast for the near future by Charles L. Wheeler, vice-president and general manager of the McCormick Steamship Company, who recently returned from an extended eastern trip. Much reconstruction material for the flooded areas, especially lumber, will come from the West, he says.

The Steamship King Malcolm, under charter to J. J. Moore & Company, will load a full cargo of 4,500,000 feet of lumber on Puget Sound for South Africa early in June.

TO DREDGE PARTS OF INNER HARBOR

Further Work Will be Done This Summer Around Hospital Rock

Tenders for dredging parts of the inner harbor close to-day and work should commence about the middle of June, according to an announcement made by J. P. Forde, district engineer of Public Works.

Points to be dredged include part of Hospital Rock, near the turning basin in the harbor, the harbor bottom on the upper side of Johnson Street Bridge and adjacent to the Sidney Rubber Roofing Company's plant.

It is expected that the dredging will be completed before the end of the summer, Mr. Forde stated.

Tyndareus Has Only Passengers For This Port

The Blue Funnel liner Tyndareus, which is due here on Friday from Japan and China, has a total of 215 passengers for points in Canada, a large number of whom will disembark at this port. According to advices received by Ritheta Consolidated, local agents, the vessel has no cargo to set down at this port, but will proceed directly to Vancouver after landing passengers.

TIDE TABLE

BOEING COMPANY'S NEW PLANE TRAVELS 180 MILES PER HOUR

Seattle, May 17.—A pursuit plane designed and manufactured by the Boeing Aeroplane Company of Seattle has developed a speed of more than 180 miles an hour, fifteen miles an hour faster than pursuit planes used by the United States army, the company has announced.

Tests are being conducted at Camp Lewis and will be continued at the Sand Point field, after which the company plans to ship the plane to Dayton, Ohio, for thorough tests by army experts.

It is a 3,000-pound biplane with a thirty-foot wing spread, carrying a twelve-cylinder Packard motor.

GROOTENDYK IS UNABLE TO DOCK

High Wind Prevents Holland-America Liner From Tying Up in Royal Roads

Owing to the heavy southwest wind which swept the straits and harbor entrance this morning the S.S. Grootendyk of the Holland-America line, which arrived here from San Francisco was unable to tie up, and steamed out in the Royal Roads to anchor until the wind dropped.

The Grootendyk steamed in from Quarantine Station about 9 o'clock and made an attempt to get up to the wharf, but could not negotiate the danger to the wharf and the vessel.

She has 125 tons of cargo for this port from London and Rotterdam.

TWO VESSELS DUE HERE ON MONDAY

President Jefferson and Shidzoka to Arrive Day Before Holiday

With 300 tons of cargo for discharge at this port, the American Mail Line vessel President Jefferson, operating in the joint Dollar-American Mail service to the Orient will arrive here Monday morning, according to 20 advices received by W. M. Allan, local agent.

In addition to cargo, the Jefferson has ten cabin and fifty steerage passengers for this port and ninety bags of mail. She has a large passenger list and heavy cargo for Seattle.

The Shidzoka Maru of the Nippon Yusen Kaisha is due here the same day from Japan and China. The Shidzoka, under the command of H. Tsuruhashi, has 118 tons for discharge here and fifty-nine optional for discharge at Seattle or Port Moody. Included in cargo for discharge here is a small silk shipment.

Her list totals eight-eight, including seven first and thirty-eight class passengers for Victoria and Seattle. Can be included in cargo for discharge here is a small silk shipment.

SEAMEN BURNED ON GOVERNMENT VESSEL

Halifax, May 17.—Four workmen were trapped inside a boiler in the Canadian Government steamer Carriacou last night by the explosion of a boiler, followed by fire. The men struggled to safety through the man hole, but suffered terrible burns and a hole report from the hospital said they were in a serious condition. The steamer suffered little damage.

VESEL MOVEMENTS

Antwerp, May 16.—Arrived: Zeekonk, San Francisco.
Cardiff, May 14.—Arrived: Teespool, San Francisco.
London, May 15.—Arrived: Ben Al-June, according to an announcement made by J. P. Forde, district engineer of Public Works.

Points to be dredged include part of Hospital Rock, near the turning basin in the harbor, the harbor bottom on the upper side of Johnson Street Bridge and adjacent to the Sidney Rubber Roofing Company's plant.

It is expected that the dredging will be completed before the end of the summer, Mr. Forde stated.

Tyndareus Has Only Passengers For This Port

The Blue Funnel liner Tyndareus, which is due here on Friday from Japan and China, has a total of 215 passengers for points in Canada, a large number of whom will disembark at this port. According to advices received by Ritheta Consolidated, local agents, the vessel has no cargo to set down at this port, but will proceed directly to Vancouver after landing passengers.

FOR Sour Stomach PHILLIPS' Milk of Magnesia

Hereafter, instead of soda take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour acid, gassy stomach, and relief will come instantly.

BETTER THAN SODA

For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the

stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

HISTORY OF B.C. SUBJECT OF TALK

Hon. Mr. Justice Murphy Addresses Knights of Round Table on Interesting Topic

Traces Course of Adventure and Exploration Since Earliest Days

Giving a definite outline of events leading up to the final acquisition of British Columbia by Great Britain from the time of first North Pacific discovery, Mr. Justice Murphy, of the Supreme Court, last night addressed the Royal Order of the Knights of the Round Table at their weekly dinner meeting in the Empress Hotel on "B.C.'s History."

Although unable through lack of time to deal with the Province's development after the San Juan dispute, Justice Murphy dealt with practically every phase of exploration and litigation up to that time.

"Four great nations—Great Britain, Spain, Russia and the United States, have been the contestants for the possession of British Columbia. The names of the Emperor Napoleon and Peter the Great are closely linked with the history of the Province," he declared in introducing his subject.

Spain based her claims to possession upon two facts, he continued. Shortly after the discovery of America in 1492 the newly discovered lands covering an indefinite territory were divided between Spain and Portugal by the Pope. By this division Spain was awarded what is now B.C. Through the explorations of Balboa, a Spaniard, who was the first to cross the Isthmus of Darien (Panama), Spain also took possession of all lands washed by the waters of the Pacific except those already under other flags.

In the days of Queen Elizabeth, when Sir Francis Drake made one of his historic trips, he followed the course of Magellan round Cape Horn, landed in California and took possession of the surrounding country for England, giving also a claim to what is now B.C.

FUR TRADE DISCOVERED

Russia, through the pressure of Peter the Great, made the first settlement on the northwest coast of North America. Seeing after his visit to England that European countries were interested in the new lands opened up by Columbus's discovery he dispatched Bering to ascertain whether or not there was a division between the new lands and his own territory of Siberia. In this manner Bering Strait was discovered and Bering returned to Moscow, then the Russian capital. A grandiose expedition was formed to explore Siberia, Japan and to get to the North American continent. If this project had been fully carried out Russia might now possess British Columbia, the speaker declared, but the expedition failed in its purpose due to a great measure to scurry and Bering died on one of the northern islands.

A few of his sailors, however, returned to China, bringing with them skins of the sea otter. Through this the lucrativeness of the fur trade was discovered and Russian merchants, while keeping the goods to themselves were engaged in this trade from the year 1743 onwards. By 1799 fur trading was in the hands of a powerful Russian organization and a post was established as far south as what is now San Francisco.

Events which followed, the rebellion in the United States against England and ensuing results made it necessary for the English to discover a northwest passage and Captain Cook was dispatched to find this from the Pacific. Cook reached Nootka in 1778 to refit, later sailed north and demonstrated to his own satisfaction that there was no passage from this side and returned to the Sandwich Islands where he was killed. Calling at Macao, in the Strait Settlements, to return to England, his sailors discovered the value of the sea otter skins, selling them for the equivalent of from \$125 to \$200 gold. Capt. Meares, a retired naval officer at Calcutta, fitted out an expedition and landed at Nootka, buying from Chief Maquinna the land around Nootka upon which he later built a house, the first such on the North Pacific side of North America. In 1780, two years later, he came with an expedition of four ships, two under the Portuguese flag and two under the British flag. A Spanish sloop of war seized one of the Portuguese flagged vessels, and also the British vessels and sent them to Mexico to face a Spanish court for punishment for having entered the waters of Spain.

ULTIMATUM ISSUED
 Early in the following year the news of this occurrence reached England and

a practical ultimatum was issued to Spain demanding recompense. Spain appealed to France for aid through the Family Compact, made by the ruling Bourbon families of Spain and France, but due to the outbreak of the French revolution in the meantime, France was unable to comply and Spain was forced to make terms with Britain. Representatives of each nation were sent at Nootka to settle the dispute right on the ground.

Captain George Vancouver was Britain's representative and he was also commissioned to explore the main land coast thoroughly and chart it out. The speaker discussed the history from the inland exploration point. The first exploration of the Province and eventual sovereignty for England did not occur through the Hudson's Bay Company, as was often supposed, but through the Northwest Trading Company, with headquarters at Montreal, he declared.

NORTHWEST COMPANY
 The Northwest Trading Company entered into competition with the Hudson's Bay Company after noticing that the Hudson's Bay Company was using the practice of making the Indians come to them with furs, having established their posts near the seashore and on the rivers. The Northwest Company dealt with people who decided to link up a chain of posts throughout Canada.

The speaker then outlined the trip of Alexander Mackenzie of the Northwest Company to the mouth of the Mackenzie River, his return to Scotland for education and then his later epochal trip via the Peace River, Pacific River, Fraser River and finally the Bella Coola River to the Pacific Coast by land.

Mr. Justice Murphy in closing declared that the children of British Columbia's schools were not learning enough of the history of the Province. "To learn of the great things of which those pioneers were made of their unflinching loyalty, would make our children not only better Canadians, but better men and women. Those were men of sterling courage, self-reliant and of mutual tolerance, and the children of British Columbia would be made finer citizens to realize the great traditions that lie behind them," he concluded.

A hearty vote of thanks, proposed by Sir Knight W. T. Strath, was accorded the speaker.

SUMMER UNIVERSITY COURSE WILL OPEN

University of B.C. Offers Attractive Curriculum to Help Teachers

A six-week summer session of the University of British Columbia will be held from July 4 to August 19, according to an announcement by the Board of Governors. The object is to afford opportunity for school teachers to continue their studies and work for a degree from the university. In the six weeks of special session a part of the regular curriculum is followed, making it possible to supplement the work later, and in this way gain a full university training. The course is particularly popular with teachers.

In other universities the system has been effective for some years, and British Columbia has found it satisfactory.

Students at this summer session are required to attend the classes regularly and to obtain fifty per cent in the examinations in order to pass. The staff of the university this summer will be made up as follows:

L. S. Kinick, M.S.A., D.Sc., LL.D., president of the University; Wilford M. Alkin, M.A., director, John Burroughs School, St. Louis, Mo., special lecturer in education; John Allardice, M.A. (Brit. Col.), instructor in chemistry; H. F. Angus, B.A. (McGill), B.C.L., M.A. (Oxon), associate professor of economics; E. E. Beckert, M.A. (Queen's), assistant professor of economics; W. K. Beech, B.A. (Queen's), M.A. (McMaster and Brit. Col.), B. Paed. (Toronto), principal of the High School of Commerce, Vancouver, special lecturer in advanced commercial work; D. Buchanan, M.A. (McMaster), Ph.D. (Chicago), F.R.S.C., professor of mathematics and head of department; Henri Chodet, M.A. (McGill and Harvard), associate professor of French; A. F. B. Clark, B.A. (Toronto), Ph.D. (Harvard), associate professor of French; B. H. Clark, M.A. (Toronto), Ph.D. (Leipzig), professor of organic chemistry; F. J. Coleman, B.A. (Toronto), Ph.D. (Columbia), professor of philosophy and head of the department, director of the Summer session; E. E. Delavault, B.Sc., B.Ed. (Paris), assistant in oral French; W. H. Fenton, L.C.P. (College of Preceptors, London, Eng.), head of commercial department, King George V High School, special lecturer in advanced commercial work; James Henderson, M.A. (Glasgow), associate professor of philosophy; A. E. Hennings, M.A. (Lake Forest College, Ill.), Ph.D. (Chicago), associate professor of physics; A. H. Hutchinson, M.A. (McMaster), Ph.D. (Chicago), professor of botany and head of the department, lecturer in biology; E. E. Jordan, M.A. (Dalhousie), associate professor of English; Kenneth M. Lindsay, B.A. (Oxon), special lecturer in economics; H. T. Logan, B.A. (McGill and Oxon), M.A. (Oxon), associate professor of classics; W. L. MacDonald, B.A. (Toronto), M. (Wisconsin), Ph.D. (Harvard), associate professor of English; Miss Isabel MacInnes, M.A. (Queen's), Ph.D. (Calif.), associate professor of modern languages; T. C. Fienster, B.Sc. (Glasgow), M.Sc. (Chicago), Ph.D. (Glasgow), associate professor of mineralogy and petrography, lecturer in geography; G. E. Robinson, B.A. (Dalhousie), associate professor of mathematics; George M. Smith, B.A. (Toronto), B.A., M.A. (Oxon), associate professor, University of Toronto, special lecturer in history; F. H. Sowter, B.A. (Toronto), B.Litt. (Oxon), assistant Wood, B.A. (McGill), A.M. (Harvard), associate professor of English; Mrs. Jennie Semson-Wyman, B.A., M.Sc. (New Zealand), A.M., Ph.D. (Stanford), associate professor of psychology and education; P. Dallas, Bursar; S. W. Mathews, M.A. (Queen's), registrar; J. Ridington, librarian.

PRISON SENTENCE GIVEN

Nelson, B.C., May 17.—Joseph Smith of Trail, electing speedy trial on a statutory charge brought on behalf of a twelve-year-old Trail girl, was convicted here yesterday by Judge J. A. Foran on the evidence of the girl and a companion, over his flat denial of the whole episode, and was sentenced to five years in the penitentiary and ten lashes.

INTERESTING ART EXHIBIT IS OPEN

Pupils of Mrs. Ira Unthoff Show Remarkable Versatility

Artists may be born but that they are also made is suggested by the very attractive exhibition being held all this week at the Yates Street Arcade, formerly Gordon's Limited, where the work of the pupils of Mrs. Ira Unthoff is being shown. The exhibition is open to the public free of charge and may be seen daily from 10 a.m. to 10 p.m.

While the major part of the exhibition is confined to the work of students, it is by no means a collection of immature crudities for some of Mrs. Unthoff's pupils show a remarkable aptitude and promise. The versatility of the teacher is astonishing, the work ranging from the simpler stages of line drawing in still life to portrait and landscape work in water-colors, oils and pastels, as well as a wide range of commercial art in its many phases. The collection shows the four walls of the teacher's studio in the many clever and extending into the adjoining annex and is probably the biggest individual art school display ever shown in Victoria. The work of even the very youngest pupils is an index to Mrs. Unthoff's policy of encouraging each of her pupils to express their own individuality for even the tiniest drawing has to draw from the model and not from other drawings. So all through the various stages of advancement this individuality is fostered, and the result is to be seen in the many clever and varying studies taken from the one model.

The life-class work, and the group devoted to illustration and cartoon is interesting, while the growth of commercial art is illustrated with a large collection of remarkably striking posters and designs for catalogues, book-covers and similar modern uses.

Langford

Langford, May 17.—Miss Kathleen Bayles, who was a patient in St. Joseph's Hospital, is now recuperating satisfactorily at her home on the Island Highway.

A tennis meeting will be held on Friday evening, 8 o'clock, May 20, at the home of the president, J. Stuart Yates, to which all past members and intending players for the season are cordially invited to be present.

Mr. and Mrs. A. W. Gladding from Victoria have rented "The Friars," Langford, for six months.

Mrs. Albert Bayles of Woodstock Farm, Coldestree, B.C., entertained a delightful party at the Ocean Beach Lagoon on Saturday afternoon in honor of her son, Rodney's, fourth birthday. The day was very sunny, so the little guests had a jolly time paddling, building sand castles and playing games. A delicious supper was served on the grassy slope near the water, ice cream and a big birthday cake particularly delighting the visitors. The guests present were Mr. and Mrs. Norman Brown, Mr. and Mrs. Albert Le Queune, Mr. and Mrs. Albert Bayles, Mrs. C. Bayles, Miss Kathleen Bayles, the Misses Thelma Brotherton, Alice Oak, Betty Smedley, Margaret Smedley, Mabel Brown, who was also celebrating her fourth anniversary, Betty and Margaret Brotherton, Clenys Smedley, Keith and Campbell Brown, Jackie Le Queune, Mervin Brown, Claude Hinkle, Donald Brotherton, Howard Swedley and Rodney Bayles.

Mrs. Longmire, late of Solway House, is now living at View Glade, Langford Lake.

Mr. and Mrs. William H. Maxam, with their two small sons, are now living at their newly-built bungalow on Langford Lake.

Mr. and Mrs. A. H. Shotbolt of Quadra Street entertained at a delightful party on Saturday evening at their summer home on Langford Lake. Over forty guests motored out from Victoria. Dancing, playing cards and a bonfire on the beach made the evening pass all too quickly.

Baby Feeding

For Healthier BABIES.

Consult your doctor regularly. Do not wait until baby is sick before calling him. Many illnesses can be immediately checked or prevented entirely through such care.

Helpful Baby Books Free

They treat of pre-natal preparations, feedings and how to prepare them, sleep, fresh air, bathing, clothing, exercise. Having height, weight and feeding charts. Write The Borden Co. Limited, Vancouver.

How Eagle Brand Solves the Problem

If mothers of ailing or backward babies could but see the letters we receive from other mothers whose little ones were doing poorly but who are now, thanks to Eagle Brand, sturdy, healthy, happy children! We have a message for such mothers.

If their problem is simply one of proper feeding, made necessary by inability to nurse baby, Eagle Brand can solve it. Since 1857 Eagle Brand

has been the leading infant food when Nature's supply has not been available. Its absolute purity and uniformity, and the ease with which it can be digested make it the *Safe* food. It is endorsed by physicians and nurses, and if used as directed on feeding chart will build up any infant whose only ailment is improper food.
